CHILDREN AND YOUTH SERVICES

## OUR MISSION

We lovingly nurture young people at risk by providing a safe, permanent home and services. We foster and facilitate healthy growth through a proactive philosophy rooted in permanence and driven by a true belief in each individual's unique potential to blossom and succeed.

# ABOUT US

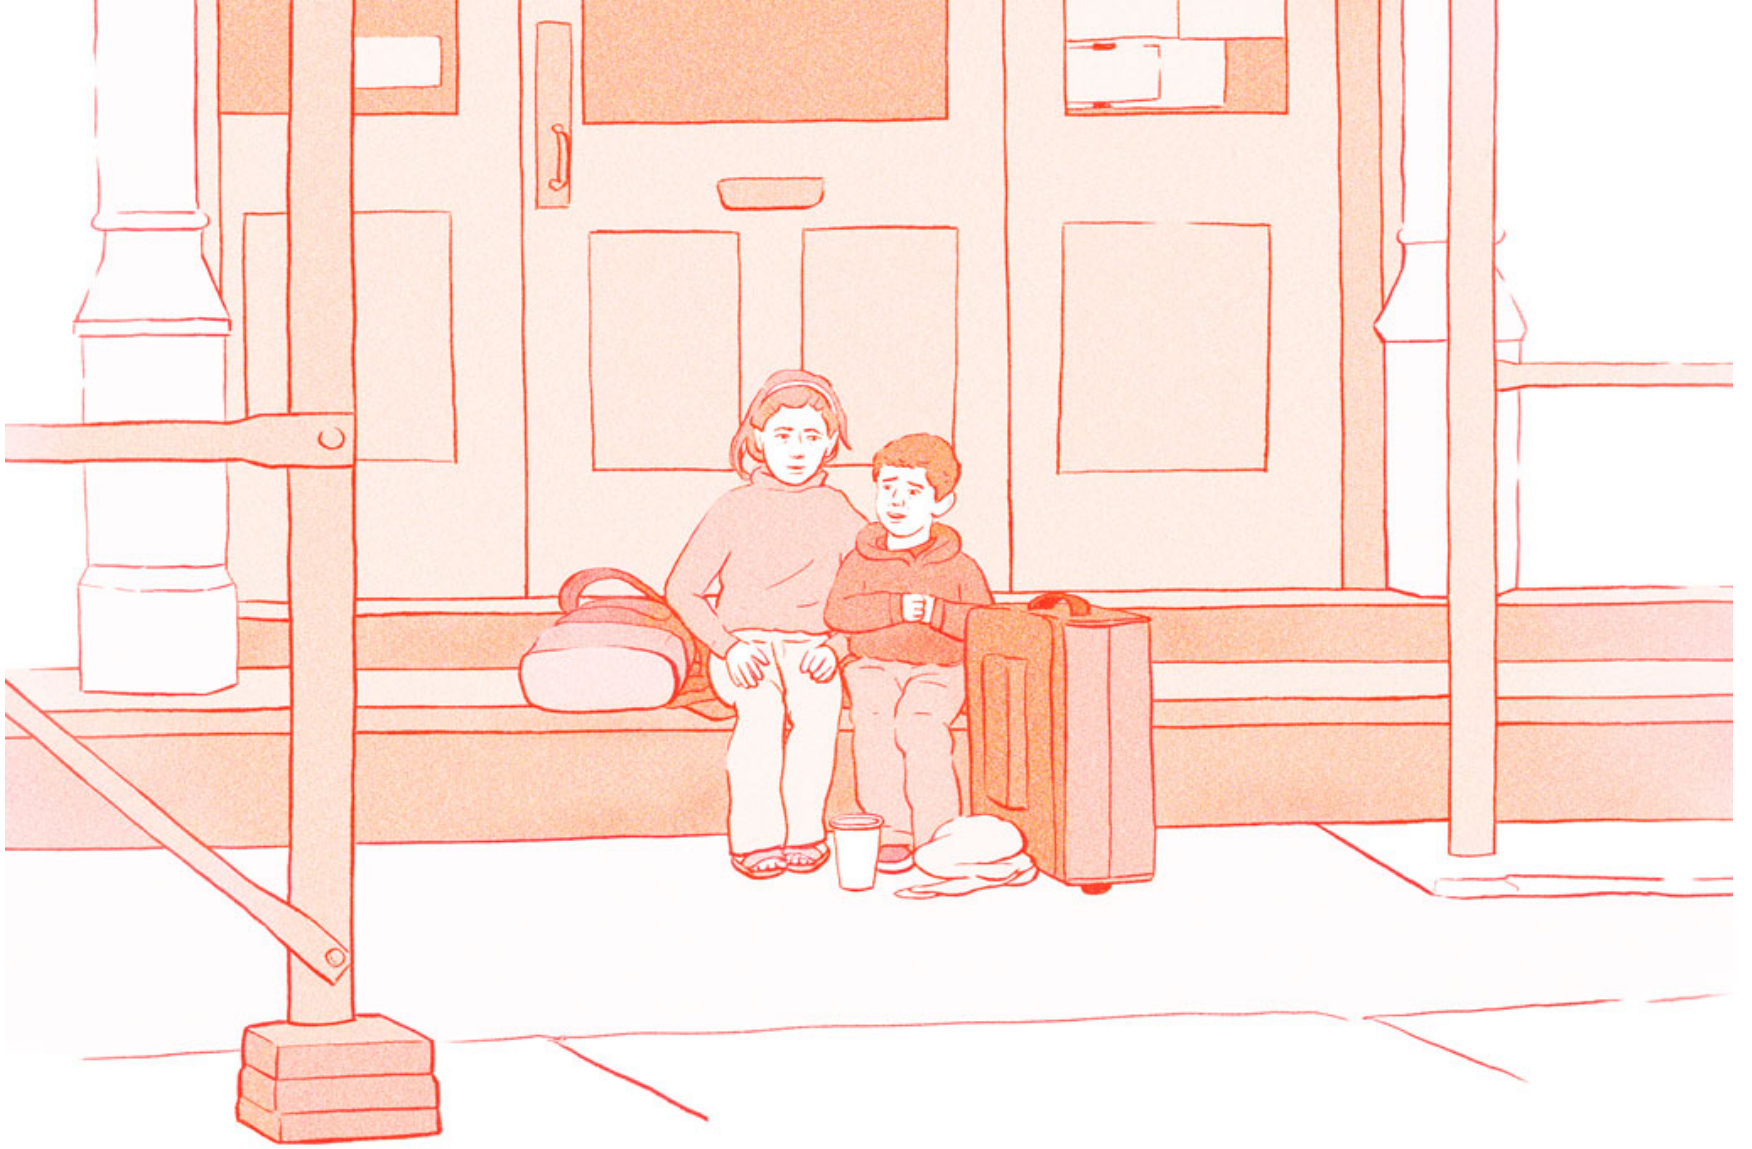

Having lived the perpetual trauma of being bounced from one homeless shelter to another over several years, A Dignified Home Founder Laurel Hilbert knows firsthand how the pain and struggle of instability adversely impacts a young life.

That's why A Dignified Home centers its mission on creating and cultivating a permanent home for youth, ages 12 to 24, in order to repair the deep traumas of never knowing when they'll be asked to leave the place they call home.

A Dignified Home believes real care for youth who have been homeless centers on the bedrock of consistency. Only if a young person can know and experience this priceless gift of stability can they grow beyond the traumas that have kept them in the shadows, learn to live independent, productive lives, and discover true happiness in a bright and brilliant future.

Because of our unique funding model, A Dignified Home will not turn away any child in its care. We believe commitment is a lifelong promise—regardless of circumstances—and we will not abandon our youth.

At A Dignified Home, our young people will experience success because we won't give up on them until their dreams come true...

## GET INVOLVED

---

### **DONATE**

Your support makes us what we are! Our goal is to never let grant requirements force us to have to ask a young person to leave our facility. Instead, we strive to keep all of our funding unconditional and not subject to displacements or quotas. At the core of that philosophy is your help. Please donate today!

**DONATE NOW**

## VOLUNTEER

You can make a major difference in the lives of our youth by getting involved. With your direct help, A Dignified Home can thrive and your immense impact will create positive change for these young people forever after.
