

## Dialects

Custodian Guardian believe 1 God wants diversity in languages rather than a global language. 1 God wants 7 Tribes using 7 main languages and many dialects. What is the main language for 1 Tribe becomes a dialect in other Tribes.

## Shire Dialect

A **Shire** is multilingual and traditional. Every Shire uses 2 languages the provincial (1<sup>st</sup>) and a local (2<sup>nd</sup>) dialect. Dialect is any other language then the provincial main language.

A **Shire** dialect is selected by using the language of the 1<sup>st</sup> settlers in the area. Where the 1<sup>st</sup> settlers language is the same as the main language. The 2<sup>nd</sup> and 3<sup>rd</sup> most spoken languages (not main language) go into a Shire referendum. A Shire can only have 1 dialect.

Each **Shire** is responsible for teaching, usage of the main language and local dialect. All Shire communications are multilingual. Dialect is a shire heritage that evolves to a shire tradition. Dialect (tradition) forms a continuation between past, present and future generations (knowledge continuity).

A **Shire** has a dialect name: Shire (Wiesngau) dialect (Bayrish) main language German (Deutsch). Being multilingual a community need!
