All Members of the North Star Volunteer Fire Department will be required to complete the following ability test. This is a timed event to evaluate the member's ability to perform physically demanding firefighting activities on the fire ground. The member will have ten (10) minutes to complete this test.

The ability test will be performed with the members wearing standard department issue turnout coat, pants, boots, entry approved structural firefighting gloves, entry approved structural firefighting helmet, and MSA G1-air pak. This is a continuous, circuit type evolution. Once the member completes station 1 they immediately go to station 2, then 3 and so on. There are no breaks and no running during the evolutions or between stations.

The member will don an MSA G1 SCBA, excluding the face piece. The member will wear all safety equipment including gloves. (The donning of the airpack will not be timed, the SCBA face piece will not be worn during this test.) All safety equipment will be in place at the end of testing.

The Proctor will record elapsed time after completing each station and the overall time at the end of the test.

The hotel pack will be carried between every station. The hose is not allowed to touch the ground between stations.  
When the member touches the hotel pack at Station 1 the timing of the test will begin.
