RIVAL  WILD

FEEDBANK FEATURES

The Feedbank is a gravity-fed deer feeder designed to elevate with a single center post. This eliminates any obstruction for bucks to access the feed unlike standard tripod feeders. The adjustable feed ports accommodate a wide variety of feed and protein. The gravity style feeder comes in several sizes that will fit any land manager's desires; Feedbank 40, 150, 300 and 600.

WH2O FEATURES

Wild Water® Mineral Supplement is the best new way for deer to consume the vital minerals they need through daily water intake. Adding the formulated dissolvable minerals to your water source ensures daily intake for your herd. The mineral supplement not only maximizes deer health, it is also highly desired which increases deer activity right where you want them.

PRODUCT BENEFITS

WILD WATER

WILD WATER® FEATURES

Wild Water® is the watering system for all the wildlife on your property. Reduce the effect disease and dehydration have on your deer herd. Fill the Wild Water concealed tank and let it flow into the water trough area. Once it is filled to capacity, the float valve system will shut itself off until water is needed again. Feed multiple animals at once!
