

SAFETY DATA SHEET

NOTICE: Judgment may be based on indirect test and technical literature. The OSHA Hazard Communication Standard only requires SDS's and special labeling for materials defined as "HAZARDOUS"; see 29 CFR 1910.1200 (c). This document may be about a product which is NOT hazardous but is provided as information for our customers. See references for information.

SECTION 1. IDENTIFICATION

Product Identifier: Lime-X	Product Identification # (PIF): 00429
Product Use: Clean-in-Place Cleaner	Emergency Telephone #: 1-800-255-3924 ChemTel
Manufactured for: Visual Pollution Technology	General Information #: 480-657-9183
P.O. Box 12833	Date Prepared: August 14, 1992
Scottsdale, AZ 85267-2833	Date Revised: January 25, 2017

SECTION 2. HAZARD(S) IDENTIFICATION

GHS Hazard Codification

Signal Word: DANGER

Hazard Statement	Category	Code	Hazard Class
May be corrosive to metals	1	H290	Corrosive to Metals
May be harmful if swallowed and enters airways	2	H305	Aspiration Hazard
Causes severe burns and eye damage	1B	H314	Skin Corrosion
Causes serious eye damage	1	H318	Eye Damage
Toxic to aquatic life	2	H401	Hazardous to the Aquatic Environment, Acute

Precautionary Measures:

Category	Code	Statement
Prevention	P234 P260 P264 P273 P280	Keep only in original container. Do not breathe fumes/mists/ vapors/sprays. Wash thoroughly after handling. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
Response	P301+P310+P331 P330 P303+P361+P353 P363 P304+P340 P310 P321 P305+P351+P338 P310 P390	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. Rinse mouth. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician. Specific treatments: See section 4 First Aid Measures. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. Absorb spillage to prevent material damage.
Storage	P404 P405	Store in a closed container. Store locked up.
Disposal	P501	Dispose of contents/container in compliance with all Federal, State/Provincial and local laws and regulations.

Hazards not otherwise classified: Repeated or prolonged contact causes skin defatting (dermatitis). Inhalation of mists/vapors/sprays is corrosive to the respiratory tract. Corrosive to digestive tract.

SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Ingredient	Common Name/Synonym	CAS #	Concentration Range %
Phosphoric acid	None known	7664-38-2	56 – 62

SECTION 4. FIRST AID MEASURES

Eyes: Immediately call a POISON CENTER or doctor/physician. Flush well with water for at least 15 minutes, holding eyelids open. Remove any contact lenses and continue rinsing.

Skin or Hair: Remove immediately all contaminated clothing. Rinse skin with water/shower. Wash with soap and water. Launder contaminated clothing before reuse. If irritation persists, seek medical attention.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician immediately. If breathing is difficult, have a trained person administer oxygen. If respiration stops, have a trained person administer artificial respiration by way of pocket mask equipped with one-way valve or other proper respiratory device – DO NOT use mouth-to-mouth method if victim inhaled material.

Pulmonary edema symptoms can be delayed up to 48 hours after exposure.

Ingestion: Immediately call a POISON CENTER or doctor/physician. DO NOT INDUCE VOMITING – aspiration hazard. If completely conscious and aware, have victim rinse out mouth. Never give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

SECTION 5. FIRE-FIGHTING MEASURES

Flash Point: Not flammable

NFPA 30 Flammability: Not flammable

Extinguishing Media: Use media appropriate for surrounding fire. Use water spray to cool containers.

Specific hazards arising from chemical: Containers can build up pressure if exposed to heat and/or fire.

Hazardous combustion products: Oxides of carbon and phosphorus.

Firefighting protective equipment: Wear a self-contained breathing apparatus with a full-face piece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment.

Sensitivity to static discharge: This product is not sensitive to static discharge.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Use personal protective equipment (Section 8). Ventilate area. Do not breathe fumes/mists/vapors/sprays. Wash thoroughly after handling.

For Small Spills: Avoid release to the environment. Spilled material may be slippery. Avoid dispersal of material and runoff into soil, waterways, drains and sewers. Neutralize with weak basic material (soda ash), then absorb spill with vermiculite or other inert material, and then place in a container for chemical waste. Litmus paper may be used to confirm neutralization. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Wash walking surfaces with water to reduce slipping hazard. Dispose of contaminated absorbent material in accordance with local, state and federal regulations.

For Large Spills: Large spills cannot occur due to packaging.

SECTION 7. HANDLING AND STORAGE

Handling: Use personal protective equipment (Section 8). Use with adequate ventilation. Do not breathe fumes/mists/vapors/sprays. Do not mix with other chemicals unless label instructs otherwise. Empty containers may contain residue and can be dangerous. Do not eat, drink or smoke in work areas. Wash thoroughly after handling. Avoid release to the environment.

Storage: Keep away from heat, flame, or sunlight. Keep from freezing. Keep only in original container. Keep container tightly closed when not in use. Store locked up. Protect from physical damage. Store away from strong bases (alkalis) and powdered metals.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ingredient	CAS #	OSHA/PEL	ACGIH/TLV	STEL
Phosphoric acid	7664-38-2	1mg/m3	1mg/m3	Not established

Engineering Controls: Provide adequate ventilation. Observe occupational exposure limits and keep the risk of exposure to a minimum.

Personal protective equipment:

Eye: Safety glasses with side shields or splash proof goggles and face shield.

Skin: Chemical resistant (impervious) gloves. Normal materials handling clothing, boots and apron.

Respirator: Use NIOSH approved protection with /acid cartridge if PEL is exceeded or if mists/sprays are generated.

Other: Use in a well-ventilated area. Do not eat, drink or smoke while handling. Wash thoroughly after handling.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Light tan, clear liquid	Upper/Lower flammability limits	Not determined
Odor	No fragrance	Vapor pressure	Not determined
Odor threshold	Not determined	Vapor density (Air = 1)	<1
pH	0.2 – 1.5	Relative Density (water = 1.0)	1.285 g/ml
Melting point	Not determined	Solubility in water	Complete
Freezing point	Not determined	Partition coefficient (n-octanol/water)	Not determined
Boiling point	Not determined	Auto-ignition temperature	Not determined
Flash point	Not flammable	Decomposition temperature	Not determined
Evaporation rate (n-butyl acetate=1)	<1	Viscosity	Not determined
Flammability	Not flammable	VOC by weight	0%

SECTION 10. STABILITY AND REACTIVITY

Reactivity: Not reactive under normal conditions.

Chemical stability: Stable under normal, ambient temperature and conditions.

Possibility of hazardous reactions: Hazardous polymerization will not occur.

Conditions to avoid: Heat, flame and sparks. Keep from freezing. Do not mix with other chemicals unless product information instructs to do so.

Incompatible materials: Avoid strong bases (alkalis) and powdered metals.

Hazardous combustion products: Oxides of carbon and phosphorus.

SECTION 11. TOXICOLOGICAL INFORMATION

Toxicity:

Oral (LD50 Rat): Not determined

Dermal (LD50 Rabbit): Not determined

Inhalation (LC50 Rat): Not determined

Skin corrosion/irritation: Corrosive to skin. Symptoms may include burns, blisters, ulceration and scarring. Prolonged contact causes serious tissue damage.

Serious eye damage/irritation: Corrosive to eyes. Symptoms may include severe irritation, disintegration, scarring and clouding.

Symptoms may persist for several days. Risk of serious damage to eyes if left untreated.

Respiratory or skin sensitization: Not classified.
Germ cell mutagenicity: No data available.
Carcinogenicity: NTP/IARC/OSHA Carcinogen: Not classified
Reproductive toxicity: Not available.
STOT-single exposure: Not classified.
STOT-repeated exposure: Not classified.
Aspiration hazard: May be harmful if swallowed and enters airways. Lung aspiration may result in chemical pneumonitis, pulmonary edema, damage to lung tissue, and in extreme cases death.
Ingestion: Corrosive to digestive tract. May cause severe pain, burning, vomiting and diarrhea. Lung aspiration may result in chemical pneumonitis, pulmonary edema, damage to lung tissue, and in extreme cases death.
Likely routes of exposure: Eyes, skin
Interactive effects: None known.

SECTION 12. ECOLOGICAL INFORMATION

Toxicity:
 96h LC-50 (fish): Not determined
 96h EC-50 (invertebrates): Not determined
 48h LC-50 (algae): Not determined
Persistence and degradability: Not determined
Bioaccumulation: Not determined
Mobility in soil: Mobile in soil. This product is soluble in water and may spread in water systems.
Other adverse effects: Toxic to aquatic life – avoid release to the environment. This product can raise the pH of an aquatic environment, and thus be toxic to fish and aquatic plants. As with all chemicals, work practices should be aimed at eliminating environmental releases.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal of Wastes: Do not dump into sewers, on the ground or into any waterways. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Toxic to aquatic life – avoid release to the environment.
Contaminated Packaging: Since emptied containers retain product residue, follow label warnings even after container is emptied. Do not cut, drill, grind or weld on or near the container.
RCRA: A waste containing this product may have the RCRA hazardous waste no. D002 (Corrosive) (40 CFR 261.22).

SECTION 14. TRANSPORT INFORMATION

United States DOT:
 UN/ID No.: UN3264
 Proper Shipping Name: Corrosive Liquids, Acidic, Inorganic, n.o.s., (Phosphoric acid)
 Hazard Class: 8
 Packing Group: III
 49 CFR §173.154 (b) (2) (Exemption): This product can ship as “Limited Quantity” in inner packaging not over 1.3 gallons (5.0 Liter). (Non-Hazardous)

IATA and IMDG:
 UN/ID No.: UN3264
 Proper Shipping Name: Corrosive Liquids, Acidic, Inorganic, n.o.s., (Phosphoric acid)
 Hazard Class: 8
 Packing Group: III
 Marine Pollutant (IMDG Code): Not listed (49 CFR 172.101).
 GHS Toxic to Aquatic Life (acute)
 Transportation in bulk (IMDG - Annex II of MARPOL 73/78 and IBC Code): Not offered in bulk for transport overseas.

SECTION 15. REGULATORY INFORMATION

TSCA: All components of this product are on the TSCA inventory or are exempt from TSCA inventory requirements under 40 CFR 720.30.
SARA Section 302: The components of this product are either not regulated or regulated, but present in negligible concentrations.
SARA TITLE III Section 311/312:

Immediate (Acute) Health	Yes	Fire Hazard	No
Delayed (Chronic) Health	No	Reactive Hazard	No

SARA Title 313: This material does not contain any chemical components with known CAS numbers that exceed the De Minimis reporting levels (40 CFR 372).
CERCLA: Phosphoric acid CAS# 7664-38-2 has a reportable quantity of 5,000 lbs. at 100% concentration, however, this product is not considered a Hazardous Substance since the quantity does not equal or exceed the RQ in one package (49 CFR 171.8, definition of “Hazardous Substance”).
United States Right-To-Know: Phosphoric Acid CAS #7664-38-2 - Massachusetts, Minnesota, Rhode Island, New Jersey & Pennsylvania.
Proposition 65: This material does not contain any chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.
RCRA: A waste containing this product may have the RCRA hazardous waste no. D002 Corrosive (40 CFR 261.22).

SECTION 16. OTHER INFORMATION

Date Prepared: January 25, 2017
 Hazard Ratings (HMIS): Health 3, Flammability 0, Reactivity 0 (Scale 0 – 4). Personal Protection Rating to be supplied by user based on use conditions.

Carefully read all instructions on label before handling this product.

Keep out of reach of children.
