Inclusive Apps

Accessibility Scanner

Web accessibility compliance is a must and Accessibility Scanner is a unique accessibility solution that allows users to suggest improvements to different mobile applications. It offers easy scanning of an app that highlights a particular feature to be modified, making that app more accessible and making content on-screen easier to read and navigate.

It offers several features, including background contrast, brightness, text size, Invert Colors, Pause Animations, Text spacing, Page structure, Accessible fonts, a Reading guide, etc. How does it work –install the app, get access to the accessibility interface -initiate scanning -Accessibility issues identified and adjusted.
