About Us

This means a lot to all of us at KYKNOS S.A. Greek Canning Company. We have been faithful to our founder's values since 1915: top quality products, care for people, ethical business practices and openness are some of them.

This is achieved by constantly inspecting every step of the production procedure: from seed to shelf, as we say.

Industrial production line of canned foods.
Only the finest crop goes into a KYKNOS can.

This is accomplished through a very well organized integrated crop management system in our farms. In our factory, close to ancient Olympia, we produce, store and distribute according to the highest international quality standards. Thanks to this commitment, KYKNOS S.A. Greek Canning Company is one of the leading companies of the Greek market with export activity in 15 countries around the world.

Cans with cherry tomatoes in tomato juice next to pasta.

Highly trusted and beloved by millions of households all over the world, KYKNOS products can be found in all retail food stores throughout the country.

Our Products

Did You Know??

- Greek Canning Company has been family owned for over a century, operates in Greece and uses only 100% Greek tomatoes.
- A tomato from a can may be healthier than a fresh tomato that is not certified. All KYKNOS tomatoes are certified for integrated crop management.
- The process of canning food turned 200 years old in 2010.
- We use summer tomatoes at the optimal point of their ripeness which explains the superb taste and nutritional value of our products
- The sunny valley of Elia region offers the ideal conditions for tomato farming
- Canned tomato is one of the best sources of the powerful antioxidant lycopene that may contribute to the preservation of human health
