

Not a Native, But . . .

I'm so excited to be working with Structure Real Estate Group!

There is a wealth of knowledge and experience among our team, and I'm honored to work alongside these dynamic, caring, dedicated individuals.

I've always enjoyed helping people, and it's extremely rewarding to do that every day as a licensed real estate agent.

I love building relationships with our clients, and truly enjoy giving my all to make their home ownership dreams come true.

I've lived in 10 different states including Hawaii, but can't think of anywhere I'd rather be than right here in beautiful Colorado Springs. I love it here!

To quote my favorite bumper sticker:

'Not a native, but I got here as fast as I could!'

Working Together . . . as Partners

A fantastic place to live

Let's face it, there are a LOT of real estate choices and a lot of realtors in our beautiful city!

It's no wonder, really. Colorado Springs consistently ranks at the top of all sorts of both national and international lists when it comes to being one of the best places to live in the USA.

Every day people relocate to our wonderful town, and a lot of them find their "forever home" here with us. We can't blame them. We love it here, too!

We know not everyone is ready to buy a house when they first arrive in town, and that's okay. Many people will rent for a year or more while they get to know our fair city and choose the perfect spot for their permanent home.

If you're thinking of making Colorado Springs your "forever home" but you're not sure exactly where you want to live, we can help.

We have a very special program that lets you choose a home you might want to live in forever, and "test drive" it for up to five years. Ask me about it, I'll be glad to see if it's the right fit for you.

The one you've been looking for!

With all the realtors in town, why should you choose to work with me? I like doing things differently.

I'm not afraid to think and work "outside the box." In fact, I prefer to work that way. I'm willing to go above and beyond what's required or expected in order to give you outstanding service.

The team I work with is not about quotas. We're about working together, supporting each another and having fun while serving our clients like no one else can. You will get the kind of attention you've always wanted, and won't find anywhere else.

With larger companies sometimes people feel lost in the crowd. That's not the case with us. Helping you reach your goals is our top priority. The personal touch makes a difference, and by working with a creative, dedicated team your home ownership dreams really can come true.

There's nothing more satisfying than helping others and giving back. Putting you into your dream home is what gets us excited to come to work every day.

If you have a home to sell, I will prepare a Comparative Market Analysis (CMA) to determine your home's value and the best listing price. We'll discuss the most effective strategies to sell your home fast, and put Structure's multi-faceted marketing system to work for you.

Our system includes social media marketing, showcasing your home on over 25 websites and putting it in front of local real estate agents with qualified buyers ready to make an offer.

Get exactly what you want

If building your dream home appeals to you, you've come to the right place.

Due to our partnership with G. J. Gardner — quickly becoming the foremost custom home builder along the front range — Structure Real Estate Group is with you from the ground up. Literally.

From picking out the perfect lot of land in the perfect location to putting all the finishing touches on your custom home, we are there until you have the keys in your hand.

Choose exactly where you want to live. Design just how your living space will look and function. Building your very own unique custom home is all about getting exactly what you want. And who doesn't like that?

Give me a call today, and let's find or create your very own perfect dream home.

I can't wait to help make your dreams come true!
