Purpose of this Project

The purpose of any animal project is to help teach youth valuable life skills. These are skills that youth need in order to transition into a healthy, responsible, contributing adult. Animal projects specifically target the life skills of:

- **Responsibility** *(feeding and caring for an animal on a regular basis; completing assigned tasks)*
- **Determination** *(working with the animal on a regular basis in order to show it)*
- **Record keeping** *(keeping accurate records of the animal's health and feeding; recording information)*
- **Money/Resource Management** *(keeping track of how much money or other resources have been invested in the project, and managing money and resources wisely)*
- **Sportsmanship** *(practice being a good winner and a good loser through competition with peers and with self; dealing with constructive criticism, even when you've given your best)*

Keeping records is an important part of any project, but especially for a market animal project. If you don't keep any records, then you have no idea whether you made money or lost money at the end of your project.

General Project Records - each question has a point value!

1. What is the breed of your swine?　2. Why did you choose this breed?

3. When did you select your swine (what month)?

Rate of Gain

Expenses and Income

An expense is something that you pay for, or that costs you money. Your project expenses include the cost or value of your animal at the beginning of the project, what you paid for feed, what you paid for veterinary bills, and what you paid to show your animal.

Income is money that your project brings you. Examples of project income include what your animal is worth at the end of your project (or what someone pays for your pig), any show premiums you win, and any sponsorships you are given.

==*For record book purposes, your project begins at* end of the tagging period 12/08/2024==

PROJECT EXPENSES

Animal Expenses
What you paid for your swine OR the value of your swine if donated or self-raised.
1. If you bought your animal, simply write down the actual purchase price.
2. If you were given your swine, or if it was born on your property, simply write down the fair market value of your swine. (Not a constant price, do research!)
