

Kids' Summer Story Time

The Havre de Grace Maritime Museum is hosting a FREE Kids' Summer Story Time every Thursday during the month of July at 10:30 AM. Each week, Miss Sue Capp will read a different story. Join us in the Kids' Corner for story time and then participate in a fun craft (related to the story with recycle, reuse, and repurpose in mind) and a snack in our Environmental Center. The age range for this program is toddler to elementary school.

July 12, 2018 – Miss Sue read the environmentally friendly book *An Extraordinary Ordinary Moth* to an enthusiastic group of about 40 kids. The craft was a moth cut from used file folders. Fishing line was tied to the top so the moths would be able to “fly”. Decorative gems were glued on for eyes. Wooden ice cream spoons cut up into parts and pieces were glued to the moth, painted gray and sprinkled with glitter. “Healthy” snacks were provided.
