Dialogue™ AAC

Start communicating quickly with Dialogue AAC!

Dialogue AAC is an iOS app designed for literate individuals who require AAC (augmentative and alternative communication).

Essence® Vocabulary System-A simple spelling and phrased-based vocabulary system is included in 60 and 84 locations to accommodate different visual and motor abilities. The Essence vocabulary allows individuals to use spelling and word prediction to say virtually anything.

Customizing with specific, personalized sentences is easy to do, allowing the system to grow with an individual's needs.

Access Methods-Dialogue AAC is available on the iPad and iPhone. The app can be accessed using touch, scanning, or head tracking (available on the iPad Pro & and iPhone 10 or newer).
