

Department of Labor & Industry: In-person services for unemployment compensation claimants now available at all PA CareerLink® centers.

Text of July 28 press release.

Harrisburg, PA – Department of Labor and Industry (L&I) Secretary Jennifer Berrier today announced in-person services for Unemployment Compensation (UC) claimants are now available by appointment at all PA CareerLink® centers throughout the commonwealth.

In total, 58 PA CareerLink® centers are accepting appointments to assist claimants with their cases.

“The Unemployment Compensation system plays a critical role in making certain that Pennsylvanians and their families stay financially afloat in times of need. By expanding in-person assistance and availability to all CareerLink offices, L&I continues to fulfill its mission of serving all Pennsylvanians facing economic hardship – and that begins with directly addressing the challenges faced by underserved populations and ensuring equitable access to UC services,” said Berrier.

The in-person services are the direct result of funding the department received in [March 2022 through a \\$6.8 million grant from the U.S. Department of Labor](#), designed specifically to promote equitable access to UC programs and remove barriers some populations face in securing services. Since the program’s launch in May, L&I has used this federal funding to serve and assist more than 4,500 UC claimants across Pennsylvania.

In-person services for UC claimants are designed to assist individuals who do not have proper technology, equipment, or technical skills; individuals without access to home Internet or broadband; and individuals with limited-English proficiency. To schedule an appointment, please contact one of the following PA CareerLink® centers in your area directly.
