

# August

It does not seem possible in one more month we will be back on a school schedule. The Dragonflies have been enjoying their summer routine. Of course water days are always a huge success. We have been working on our colors and sharing. We stay very busy and have fun being together. The children have accomplished so much already. Many of the Dragonflies are using the bathroom on their own, making their beds, drinking out of a big cup, and have worked hard on putting their shoes on. These may seem small, but to them, this is a big success. Good work Dragonflies!
