Homeowner Notice of Intent to Electronically Record Audio and Video

Pursuant to ARS § 33-1804(a) Homeowner Notice of Intent to Electronically Record Audio and Video

I acknowledge and agree the following restrictions formally adopted by the Ray Manor Board of Directors. Homeowners refusing to sign or complete this form prior to the start of the meeting will be denied recording capabilities. All Owners utilizing recording equipment/cell phones must set up 5 minutes prior to the start of the meeting, and in a location where it does not disturb the Board while conducting the meeting. NO flash light on during the meeting, as it may be a distraction while conducting the meeting. If any owner's equipment fails, the association will not stop the meeting while the equipment resets. The Association is not obligated to provide equipment. NO recording of any part or all of the meeting will be posted on any social media/live streaming, or otherwise made available on the internet without written consent from the Board of Directors.
