Yardwork assistance to home owner	Peyton Bennett pbennett343@gmail.com	404-680-8454	Jim Farmer

Comments provided for those on the listings above:

This alphabetical section was begun in 2015 to provide additional information that may be useful in evaluating a possible provider. It consists of narratives of those who provided comments with their recommendations. The term "Satisfied Smoke Rise resident" will be used when the person wishes to remain anonymous.

Allen, Mike (General Contractor – remodeling, additions, repairs)

"Mike Allen is a good guy and a very capable contractor. He did a complete kitchen redo for us. The work was substantial, involving removal and re-heading a load bearing wall, windows, doors, lighting, and flooring (both hardwood and tile work). He is faithful to his estimated schedule and costs, down to the minute and to the penny. He only does one job at a time and gives each client his complete attention." -- Stanley Harper

Doster, Dan - (Handyman)

"I have one more treasured contractor -- Dan Doster. His company is "Epie's Handyman." He does Electrical, Plumbing, Carpentry, and much more. His address is: 2703 Old Norcross Rd., Tucker, GA, 30084. One night at midnight I had to call him for water leaking down my lower level apartment wall. He came over at midnight, charged me nothing, and tightened a screw! He put in a washer and dryer in my upstairs bathroom. He stands behind all his work." -- Regina Studwell

Hotz, Walter (Tax appeal to DeKalb County of the county's property tax assessment, also appeals for Fulton and Gwinnett county properties.) Walter Hotz retired after being a real estate attorney for many decades. He now has a home-business in which he does appeals of the property tax assessment of several nearby counties. He also testifies as an expert witness at the Georgia Legislature on improving Georgia laws related to property

taxes and enhanced taxpayer rights. Several newspaper editorials in August of 2015 written by State Senator Fran Millar discussed the work he and Walter Hotz did in the Georgia General Assembly to help taxpayers:

http://www.thecrier.net/our_columnists/article_f9f64df8-45ba-11e5-b3b5-330b9d4d93f0.html

I received a property tax assessment from DeKalb County and thought the value was too high by tens of thousands of dollars. I contacted Walter and he did the rest. He prepared the appeal and went down to the county office to represent me for the appeal process. This resulted in my property tax assessment being significantly reduced and frozen at that value for the next two years. The home owner can undertake the entire appeal process, but it will take time and effort and probably a trip to attend a hearing at the county office. The fee that Walter charged was well worth it to me because it eliminated essentially all time and effort on my part.

-- Jim Farmer

Inspect-All Service (Pest control)

"I have used them a long time for pest control, my daughter has used them for animal control in the attic, we were both very satisfied with them." -- Lucy Chang

M. V. Inc. (Septic and Sewer) <http://www.mvincseptic.com/>

My septic tank was still percolating but had not been serviced in over 12 years (if ever). This company did a complete service for my tank and I was very pleased that that did such a thorough cleaning and removal of debris that had accumulated. They gave me a quote before they removed the dirt to visualize the system below ground, but emphasized that they may need to revise the quote if the system required more time and effort when contents of the tank could be better seen. They explained that they would provide a revised quote in that case, and that I could approve or pass. They did as they said they would, and I approved the additional work because the quote seemed reasonable and was less than quotes that some that my neighbors had mentioned.

-- Jim Farmer

Markos, Mike - The PC Link (Computer – in-home or remote service, installing new software and hardware, problems, trouble shooting) <http://www.thepclink.com/index.html>; see his ad in the *Smoke Rise Signal*

I have used Mike for several years for the services above, and give him a high rating. He can come to your home to do work, or he can install a program that lets him work on it remotely (amazing!). He is a one-person operation, so has low overhead. This is why he has lower prices for his services. -- Jim Farmer

Mr. Fix-it-Ron – General contractor

"This last Saturday a new contractor worked at our house. He advertises in our Smoke Signal as 'Mr. Fix-it-Ron'. He did a wonderful job, and very reasonable fee. He painted our entire soffit, and all the new boards that had been replaced on our outside sun room and deck. I can honestly recommend him to other neighbors here." -- Regina Studwell

Paper Stream Appliance (Appliance repair)

"Responded in three hours on a Sunday. Did a great job." -- Satisfied Smoke Rise resident

Papp, John – (Handyman)

I have used John on a number of occasions for both inside and outside work. I give him a high rating on all criteria. He is nice, dependable, and has always done a good job for the tasks at hand. He bills at \$25/hr. for Smoke Rise customers but at a higher rate for those that are non-Smoke Rise. I prefer to pay "by the job" rather than "by the hour" but have made an exception for John because he does not waste time. Thus, I find that his hourly rate is fair. -- Jim Farmer

Pumpco Septic Service (Septic and Sewer)

"They redid my sewer field lines. Great job, price very reasonable! Staff and employees were very helpful and efficient." -- Lucy Chang

Roberts, Yvonne (Wallpaper)

I selected Yvonne Roberts from the list for installing wallpaper. She was very professional, arrived on time and provided a very reasonable quote. On the day of installation, she again arrived on time, did an excellent job and cleaned up. I would definitely use her again -- highly recommended. -- Darrell Satterfield

Roberts Tree Service and Landscape (Tree work and landscaping)

"They cut a huge dead tree for me, well done, efficient, clean!" -- Lucy Chang

To be completed:

- **Garmon's Auto Service**
- **Personal Service Plumbing** (Plumbing of all types)
- **Rozar, Bob** (Tree work)
- **Wise, Jim** (Electrical)

Also of possible interest:

Smoke Rise Agents – Vendor List

<http://smokeriseagents.com/resources/vendors/>

This list is similar to the list above and states:

"We always are asked for contact information for Vendors who can do all kinds of work relative to homes and real estate. We have put together a list that will be growing and changing as we add vendors where there is a good experience and remove vendors where the experience is less than we would have liked. These are contractors and vendors that we have had a good experience with either personally or with a seller or buyer. We do not have a business relationship with most of these companies and individuals and consequently simply give their names and contact information out of courtesy."

Notes and Additional Resources

Your input. Please provide input on how this listing can be made more useful. Also, please provide recommendations of any names to add, or negatives about anyone on the current listing.

Additional resources. There are many internet resources and other resources that may be helpful as a starting point. Each year I typically receive paper book described below that have "their recommendations" for many companies. These apparently are sent to a large mailing list that the companies maintain. The main danger is that the recommendations have a "pay to play" bias in the companies/services listed and what is said about them.

The following **are not necessarily "recommended,"** but are given as additional resources that may be useful.

Quality Home Service Guide Five Star Rated – DeKalb County Georgia. This is a free 120+ page booklet that lists "local home services companies" that have "received a 5 star rating based on a "12-15 page evaluation report" that is described in detail in the booklet. You may have already received this booklet in the mail via a large mailing list of addresses/residents in the county. If not, you can contact:

Five Star Rated by Home Service
P.O. Box 2785
Kennesaw, GA 30156
770-271-3411

Best Pick Reports

Home Advisor - free internet reviews: <https://www.homeadvisor.com/>

For example, I was looking for a plumbing company to replace four obsolete toilets and found 76 reviews for K. Harris Plumbing and Drain Service at: the HomeAdvisor.com internet site.

<http://www.homeadvisor.com/rated.KHarrisPlumbing.25273066.html#ratings-reviews>

Smoke Rise Facebook page. Jan Martinez recommended the Smoke Rise Facebook page as an additional resource for service providers: <https://www.facebook.com/groups/146533340316/>

Disclosures, conflict of interest checks. I declare that I have no financial interest in any of the companies, people, or items in the above listings and have no conflicts of interest or other information to declare. None of the those listed have made contributions of money, goods, services, or anything else in order to be included in the listings. -- Jim Farmer

Happy Puppy

A LARGE oak tree fell across the rear of my house. It demolished almost one third of my single story house. After the tree had been removed and the house was protected, Rex and his team came in and removed all of the damage. They replaced a brick wall, one third of my roof, put new shingles on the entire roof in two days to keep the weather out, replaced wall studs, re-screened a porch, rebuilt a BBQ pit, re-carpeted the floor, re-routed and replaced electrical wires and fixtures, and painted. As "Murphy's Law" was working, Rex and his team handled each event with vigor without a word. Rex always took care of these "things". I hired him again in handle an "IRMA" happening and again, I was very satisfied.
