

Robby Ginepri - Former ATP Touring Pro

Julius Robberts, Jason Parker, Rene Ginepri & Robby

GINEPRI PERFORMANCE TENNIS at Olde Towne Athletic Club

Thank you for taking an interest in the Ginepri Performance Tennis Academy. By competing and coaching at every level, we have accumulated the knowledge necessary to maximize every athletes potential. Beyond our credentials, is our passion for coaching and leading young men and women to improve as players and people everyday. Our first hand knowledge of this incredible sport is what provides us the ability to apply these experiences to our students development.

ENTHUSIASM * COMPETITION * TEAM * ACCOUNTABILITY

Enthusiasm - We bring the noise. Each and everyday we come with energy and passion. We strongly believe in encouragement and positive reinforcement to bring the best out of our kids. We know that if we believe in them, they will likely believe in themselves.

Competition - Competing is a skill, just like hitting a forehand. We compete everyday in various ways; from team games to singles and doubles sets. Our first hand experience in the highest pressure situations that tennis has to offer has enabled us to create a daily lesson plan that helps players become "clutch." All players who are "clutch" love to compete and embrace the moment. "Pressure is a privilege" - Billie Jean King.

Team - Team is everything to us at GPT. Through a team philosophy we are able to build incredible character. We have developed a program that encourages leadership, discipline, respect and pride. We practice these characteristics diligently each day.

Accountability - The most important aspect of our philosophy here at GPT. We ask only two things of our students; "Try your best and have fun." We make young men and women accountable for their actions on the tennis court. We are very disciplined in this arena and ensure that there are consequences for throwing of the racket, not trying, etc. This goes back to our pride/discipline and we emphasize that every student is representing GPT. That means our actions reflect on our tennis club, our coaches, as well as one another. This philosophy makes everyone a leader because we all hold one another to this standard.

GPT is the premier tennis program in the South. Not only are our tennis and fitness coaches top shelf, but our facility is perfect for anyone trying to maximize their tennis potential. With our diverse staff from our Stars of the Future 10 & Under Program, to Robby Ginepri, former **World #15**. We are one of the few programs worldwide that have the knowledge and experience to help players of all levels. We apply a rare blend of fitness, mental skills training and tennis to create a program that is not only fun, but conducive to their ultimate tennis goals.
