# CONTENTS

This fall marked our sixteen years for Teatro Tariakuri and what wonderful years it has been. On July 14th 2020, we officially became a 501(c)3 and it could not have happened at a more crucial time. At the onset of the pandemic, we went into crisis mode and thanks to our new 501(c)3 status we secured and delivered pivotal resources to the community ,

We invested in our studio and theatre and provided a consistent and reliable presence throughout the summer to make sure our students, staff, and neighbors received safe and secure place to create, and perform.

We will continue to adjust, adapt , and strive to provide access to affordable low or no cost tuition. Our main goal is our community. Because the arts are essential.
