## Map of CDBG Eligible and Target Areas

## **Funding Objectives**

The City must report progress to HUD on how funding awards advance the 2015-2019 Consolidated Plan. In past years, some applicants that received funding were not aligned with the five-year plan. As a result, the services provided by those organizations could not be reported to HUD. If a city does not adequately fund applications advancing the five-year plan then HUD could view the program as underperforming, lower future grant award amounts, and/or audit the city's program.
