

## Extreme Weather Conditions

During the Fall, Winter and Spring we may experience extreme weather conditions beyond our control and if so, we may delay or reschedule garbage pick and recycle pickups. During an extreme weather event please listen to your local radio "The River 94.1 FM" or check the "Home Page" of [athabascaregionalwaste.com](http://athabascaregionalwaste.com)

### Using your cart in Winter Conditions

***Failure to set your cart out properly may result in a missed pick-up.***

In Snow Conditions make sure your cart is standing straight up on a firm footing. If there is a snow bank along the curb, the garbage cart must be placed out from the curb a little further. The cart should not be placed on a snow bank.
