

“Mobile Grandstand”

This custom built mobile grandstand provides highly mobile, quickly set up seating for your event. It is built on a 4 wheel trailer and requires an area approximately 50 feet wide by 32 feet deep of reasonably flat ground. It opens hydraulically at the touch of a button once in place and provides seating for 450 people (24" standard) in it's 15 rows of aluminum seats. Complete with center aisles and handrails it is built to meet IBC code 2009 requirements. All of this for a fraction of the cost of erected in place temporary seating units.

It can be transported by a heavy duty pickup with a 2 5/16" trailer ball. The entire hitch assembly is removable from the grandstand once it is in place. It is leveled in place with easily adjustable stabilizing jacks. Arrangements may be made for you to transport and set up the unit, or delivery is optional.

No insurance of any kind is included with this unit. It must be covered under your event policy.
