March 16, 2020 Morse Dental Lab Operating Update:

Morse Dental Lab is your dental laboratory partner that would like to extend the following updates. Our staff and service professionals are staying up to date on all local, state and national updates as they become available to our industry. Morse Dental Lab is an Ohio owned and operated business that will maintain our service until REQUIRED to pause.

Morse Dental Lab can be reached by:

Email: pmorse@morsedentallab.com or kday@morsedentallab.com
Telephone: 888-738-0715 or locally at 440-639-1078
Website: www.morsedentallab.com

1. Morse Dental Lab is a Nationally Certified Dental Lab. From the National Board of Certification: Dental Laboratory: This designation requires stringent infection control and case management standards with a requirement of having at least one Certified Dental Technician employed at the laboratory. This means that we have qualified and maintained an environment that meets or exceeds national standards for our own protection and the protection of our dental partners.
2. For the protection of our staff and yours, it is essential to disinfect all items both incoming to and outgoing from your office. All tools, equipment and handling areas within Morse Dental Lab are disinfected multiple times daily. We do recommend that all lab products, received from any dental lab, should be sterilized prior to placement.
3. Morse Dental is here to service our Ohio dental partners during this emergency. Although we will NOT be running our regularly scheduled driver route, PLEASE call into the lab and speak to Penny about scheduling services for emergency patients. No patient should be without their removable appliance if we can help. **We will NOT be handling same day work though. Please call Penny for all relines, repairs and functional removable appliances.**
4. If you are one of our out-of-state dental partners, please practice essential disinfection safety when packaging casework. You are welcome to ship casework to Morse Dental Lab and we will work our hardest to maintain the usual lab timelines that your office has come to expect until the Ohio Guidelines initiate a suspension. Communication will become essential during these times and please know that you can reach the lab either by emailing pmorse@morsedentallab.com or by calling 888-738-0715 to check on casework.

Thank you and please stay in communication.
