

Junior Red Angus Newsletter

Young Stockman Program Review

This past December we hosted our annual Young Stockmans Program, in Manhattan, Kansas. It was a phenomenal three days filled with hands-on learning. Friday night we spent time learning about each other and our operations, and more about Red Angus programs. Saturday we started by traveling to Kansas State where we had three labs including: Beef Handling, Reproduction, and Quality and Selection for Herd Development through foot scoring. During lunch we participate in a live sale within groups, in the hopes to purchase the most profitable females. Then we visited Kniebel Cattle Company, where we toured there farm, learned about their operation, and had some fun! Sunday morning we analyzed the cattle we purchased the day before and say which group made the most money.

You can find a review video on our Facebook page:

Member Search

This will generate a list of all active junior members with in your state and contact information for them.

1. Login into REDSPro
2. Under the Data Search Tab, click Member Search
3. Click on the Address Tab
4. Enter State
5. Change Account Type to Junior Members
6. Click Search, a list of all members should show with their Name, Address, Phone Number, and Email.
