## PINK CHLORINATED POWDER

- ✓ Dual halogen broad-spectrum
- ✓ For use on all surfaces including food preparation equipment and food contact surfaces
- ✓ Without fragrance to comply with HACCP requirements

### WHAT IT IS FOR

A soluble, free-flowing chlorinated sanitizing powder formulated as a dual halogen broad-spectrum for use on all surfaces including food preparation equipment and food contact surfaces.

### RECOMMENDED DOSAGE

Dissolve 150g (3 scoops) of the powder per 10 Liters of water.

### USE

Pre-clean heavy soiled surfaces and immerse in the solution or spray.

Can also be wiped or mopped onto pre-cleaned surfaces, allowing 4-6 minutes contact time.

Leave for 4-6 minutes and rinse.

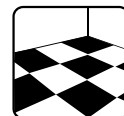

Always rinse afterwards with clean water.
