10K Alumni Challenge Results

Note: Each runner's performance is graded according to their age and gender and given an "Age grade" score. The higher the score, the closer the runner was to the world record for that distance, and for their age and gender. The top five scores are added for a combined team score (the time on the right, in the parentheses), while the average score of the five highest finishers is listed as the first score in parentheses.
