

## Survey Evaluation Results

Dear Marcos,

In the attachment you will find the evaluation results of the survey PO30301\_22SP Political Inquiry.

The overall indicator is listed first. It consists of the following scales:

- General Info
- The Student
- The Course Overall

The overall indicator is followed by the individual average values of the scales mentioned above.

In the second part of the analysis the average values of all individual questions are listed, along with a comparison to the overall results for the entire school.

Sincerely,  
College of Arts and Sciences

## 2. The Student

2.4) Please provide any additional comments you would like to convey to the instructor about YOUR performance in this class.

- I believe that I did everything that was expected from me to do good in this class, and now I feel a lot more reassured for future research classes as I now understand the various methodology, I know how to do the research, find appropriate literature and finding evidence that reinforced the rest of the research.
- None

- One of the most dedicated professors who not only explains concepts exceptionally, but makes sure there is a shared understanding in the classroom for open discussions.

### 3. *The Professor*

3.8) Please provide any additional comments you would like to convey about the professor's teaching:

- None.
- One of the best professors I have had.
- Professor Marcos Scauso is, and I cannot stress this enough, the absolute BEST professor I have ever had in my college career. Professor Scauso:
  - ~ made himself available to every student at all times. If you need help, Professor Scauso will provide feedback, advice, or support immediately with no questions asked.
  - ~ cares infinitely about his students and their success both in and out of his class. He helps with work, is kind and supportive, answers any questions, and happily aides his students even after the course is completed.
  - ~ is immensely enthusiastic about the course material as he teaches. The course itself is quite difficult, so Professor Scauso's eagerness as he explains different theories and research methods keeps the class entertained and invested throughout the semester.
  - ~ was effective in communicating his expectations for every assignment. Professor Scauso never allowed for confusion on any aspect of his assignments and worked tirelessly to ensure every student was properly informed of what they needed to submit (and when the assignment was due, tools to help with the work, etc.)
  - ~ was completely fair and thorough when grading. When taking points off, Professor Scauso was direct and clear about what went wrong in the assignment. He also made sure to identify methods of improvement for the future to ensure the issue was not repeated. His grading was completely unbiased and always justifiable. Any grade a student receives in Professor Scauso's class was well deserved.
- Professor Scauso made it really easy to understand the different steps of the paper through various examples and explained each step in a very detailed way.
- Scauso is the best professor at this university hands down. I have taken 5 of his classes and they are always the highlight of my semester and being able to take two with him this semester was a wonderful way to round out my time at QU as an undergraduate.
- The professor is accommodating of his students and makes an active effort to reach out and check in.

### 4. *Class Materials*

4.3) Please provide any additional comments you would like to convey relevant to class materials:

- None

### 5. *The Course Overall*

5.3) Please discuss any and all strengths and weaknesses related to this course:

- For a class which was very technical it was a lot more interesting than I expected. Learning about the fundamental methodologies of research like Positivism and Interpretivism along with very sophisticated explanations of it by the professor, I absolutely enjoyed this class. I like the way the assignments were organized which I prefer a lot more than Quiz style assignments as you get more feedback and come out as a stronger student. I rarely say this but this class had no weaknesses that I can think of. 11/10 would take again.
- I absolutely adored this class, especially the fact that we were allowed to explore our own topic that we wanted to research. Professor Scauso support and help made the construction of this paper a lot less scary and a lot more enjoyable.
- None.
- One of the best professors at this school!
- This course was deeply impactful. I have learned skills that I will utilize throughout my career. It was undeniably a great challenge, but the amount I have learned from this course makes all of the work and stress worth it.
