

Hello all!

Our next LIT session is on March 20th, Friday. The topic is biology and we'll be doing a fun lab.

This past week's session was about International Women's Day(today). The girls got to act out and learn about different influential women throughout the years. We went from Cleopatera to RBG to Misty Copeland. It was great to see that they wanted to do and achieve so much, such as go to space like Sally Kristen Ride.

It's getting warmer,
Kaylen on behalf of LIT
