

Whitewater Rescue Technician (WRT)

This course is designed specifically for professional guides, private boaters, fish and game personnel, and others who work or play on or around flowing water. Students will benefit from this intensive, hands-on course and will learn to use techniques and simple equipment to assess and perform river rescues. The emphasis is on speedy, low-tech, and improvised rescue techniques that are effective and require minimal equipment.

Standard:	Rescue 3 International
Prerequisites:	Basic swimming ability
Equipment:	Type III- V PFD, water rescue helmet, water shoes, water rescue Gloves, thermal protection (wetsuit/dry suit) if water conditions warrant.
Tuition:	\$345
