

## "HIGH DIMENSIONS LOFT" "Premium Quality Racing Pigeons"

**Our policy** is to obtain the best stock available and then work with it. I am as strict as possible when it comes to the **Quality of our pigeons**. Most of our strains are true-bred, but keep in mind that there is variation in every pigeon line. Just as well, anything may result from a recent outcross.

One of the great things about our **HDL pigeons** is the ease in which you can modify a strain and take it in different directions or distances. The effort to turn them into something new and unique can be very rewarding. This is easier when working with lines that show more variation. Some prefer to develop new strains, which will be easier from lines that show variety. What you prefer will help you determine whether you should seek line-bred pigeons or out-crossed pigeons.

**HDL Racing Pigeons** are bred to meet our standards set forth by **(Raul Mejia)**. If you decide to acquire a **HDL Pigeons**, be sure to pay close attention to the results. Don't be overly concerned with getting pigeons from different sources as this will prove fruitless. Purchase what you like, see if you can improve upon their traits, and the results will astound you. There is no real advantage to getting **"Racing Pigeons"** if you have no intention of testing them. Buy these pigeons and you will be at the top of 1%.

There is a general consensus that **"High Dimensions Loft"** is an indication of **"Premium Quality Racing Pigeons"**. This is why an award-winning pigeon line may be coming your way.

When evaluating a **HDL pigeons**, be mindful of the class they may enter as this will greatly determine their level of competition. It may surprise you to learn that some lofts get few entries and "placing" is sometimes as easy as entering. In other words, winning some races requires more than just little skill or even good pigeons. As such, many of the classes are very competitive with many great pigeons competing for the win.
