

Our Mission

Horizon Child Care, Inc. is a community of talented, caring individuals committed to creating a nurturing, dynamic environment designed to foster a child's curiosity while fully addressing his or her needs.

We are professionals committed to respecting the dignity of each individual child. We encourage each child to discover new abilities and master new skills. These tangible victories in turn promote the intangible development of confidence, self respect and self expression. It is our privilege to foster these fundamental human qualities in your child.

Horizon Child Care, Inc. accepts subsidies from **Working Parents Assistance** and the **Department of Social Services**. We will be glad to provide you with further information about these programs.

Horizon Child Care, Inc.

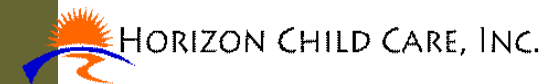

Serving the Community since 1987

Licensed by the State of Maryland
Department of Education

Horizon Child Care, Inc. encourages and accepts children of any race, religion, and ethnic background.

Preschool Program

The **preschool child** needs nurturing affirmation in a setting that is both secure and homelike. The program provides both group and individual activities designed to enable a child to explore the world around him or her while developing social skills. Our setting encourages a child to use his or her imagination and grow as an individual through activities such as:

- building blocks
- dress-up,
- dramatic presentations
- sand and water creations
- open ended arts and crafts
- music and dancing
- rigorous outdoor play

The program balances these individual activities with developmentally appropriate large group activities such as:

- circle time
- puppet presentations
- cooking activities
- organized games
- staff lead art projects

Language acquisition and communication skills are essential to early childhood development and are reinforced throughout all of these activities.

School-Age Program

The **school-age child** care supplements a family setting between school hours and home hours. A school-age child has complicated needs ranging from affirmation to discipline, and from stimulating activities to quiet time. School-aged children have an increasing need to make choices, express preferences, and feel independent while still belonging to a group. Peer pressure and the stigma of “still” going to daycare are negative factors that many older school-age children face. Horizon addresses these needs by providing opportunities for both individual and large group activities. A typical week at Horizon will include:

- daily individual and group indoor and outdoor free play and organized games
- daily quiet study hall with staff assistance as needed
- staff organized arts and crafts
- cooking projects
- logic games such as checkers, chess, Monopoly and Connect Four

Half day and full day special and seasonal activities include:

- nature walks and fishing trips
- field trips to local pools and parks
- library visits
- sledding and bike riding
