This will be discussed at the next board meeting on the 16th, not through email exchanges.

I have a question for the Town Administrator and the Select Board, how did the minutes state that questions regarding the lack/inability to obtain town documents from me, which have always been available, came about in the Select Board unofficial minutes when it was never mention, or discussed during the Select Board meeting?

this was totally not discussed during that meeting, but was included in the minutes. I feel violated and abused by those, who feel they hold and "abuses their powers.

Hi Anita,
If you are questioning the accuracy of the draft minutes, you can let your email be your objection and we will put it into the official minutes, or you can come to the next meeting and make your objection when we move to accept the minutes.

Hi All,

Its is so untrue that the town has not received town documents I have created on my own personal computer! Kate, Amanda, and Deb, have received every documents that I have created on my own personal computer. I have created these documents on my own personal computer, due to the inability to access the Listrs. NEMRC program. And, that is because of Mike Marcotte and the Selectboard, who make my job impossible to do. " abuses of power." I think the town's people would think twice about re-electing the current select board, and in paying Amanda Carlson in which is getting paid for creating trouble. After all, isn't that what she is paid for? And paid very Well. Creating trouble and drama.
