

**Keeping Pace With Evolving Treatment Paradigms in Advanced Renal Cell Carcinoma:  
The Nurse's View - Nazy Zomorodian, RNC, MSN, CUNP, CCRC**

Learning objectives:

- Distinguish the mechanisms of action of IO agents and VEGFR TKIs in advanced renal cell carcinoma (RCC)
- Differentiate the efficacy and safety profiles of IO and VEGFR TKI therapies for advanced RCC
- Assess strategies to improve treatment tolerability, control adverse events, and ensure the provision of patient-centered RCC care
