

EVALUATION SUMMARY

Stewart Street, Richmond - Shared Zone Evaluation Results

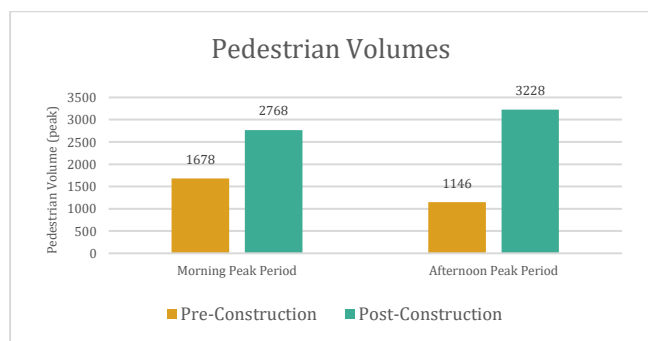

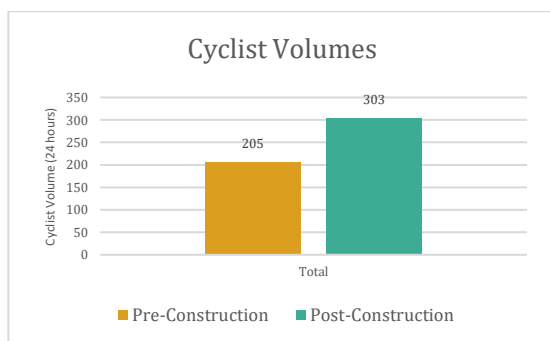

Stewart Street before (Left) and after (Right) treatment

Safe System Solutions Pty Ltd was engaged by the City of Yarra to undertake a before and after evaluation of their new Shared Zone near busy Richmond Station. The evaluation found that vehicle travel speed had decreased markedly, and vehicle volumes had also decreased:

There was also an increase in cyclist and pedestrian volumes:

The full evaluation confirms that the City of Yarra has achieved their goals and that a properly designed and implemented Shared Zone can be an effective method for improving road safety and increasing active travel.

This project was partly funded from the TAC's Small-Scale Infrastructure Grants Program. Click [here](#) for more details about how your council can get funding to improve the safety of pedestrians and cyclists.
