

# Gen & Joe's Story

Gen and Joe came to Life's Connection for a pregnancy test.

They had been together for some time but were not expecting a positive test.

They didn't know what they were going to do.

Abortion seemed to be their only option.

They were fearful of many things and what their life would look like.

At Life's Connection a gentle counselor spent weeks on their journey of indecision. Each time an ultrasound was performed, and week after week Gen and Joe fell deeper in love with their little baby. They chose life!

They made a plan, informed their families and began childbirth classes and newborn care classes at the center. They received clothes, diapers, a crib and many other baby items from the Baby Boutique. They gave birth to a beautiful baby boy 9 months later!

Life's Connection staff helped Gen and Joe with parenting classes and set goals with them.

We are happy to announce that this lovely family of three own a home, have wonderful jobs and are enjoying the blessing that God has given them!

Gen and Joe are smiling because if they hadn't come into Life's Connection and received help They feel they would be missing out on LIFE! !
