

It was a very exciting week working and playing with dinosaurs and learning that dinosaurs roamed this earth millions of years ago!

We started the week with our music teacher, Ms. Mary Jo, who sang dinosaur songs with us. Our favorite song was “Dinosaur Stomp” by Koo Koo Kanga Roo. As the week continued, we sang “My Name is Stegosaurus”, "Allosaurus", and more.

We learned about the peaceful plant eating dinosaurs (herbivores) and the meat eating dinosaurs (carnivores) and that some ate both plants and meat (omnivores).

Art projects included painting a brachiosaurus and making an allosaurus bag puppet. At group time, we discussed paleontologists and fossils, and we ended our week with what happened to the dinosaurs and where did they go? Some of the children’s answers were: Meteorites, fire from volcanos, floods from rainstorms. I guess we’ll never know.
