September Club Descriptions

Leadership, Team Work, Fun, Adventure

Book Club: Students will pick from a list of books each month. Imaginative and interactive activities will enhance comprehension and help encourage even our hesitant readers to keep up with the group. At the end of the month, there will be a Battle of the Books contest with prizes for all.

Farm Club: Students get to take advantage of our farm environment. We will rotate caring for our farm animals and tending to our farm garden. There are corn mazes, pumpkin patches, vegetable gardens and more to explore and discover.

Leadership Adventure Club: This session is perfect to help develop our young leaders with team building skills through animal encounters, outdoor adventures, age-appropriate construction projects like building a tree house or animal enclosures. During each session, the group will choose from a list of service projects to be completed on the property. This experience will be valuable to help develop team building skills for our future leaders. This will be for students in 3rd-5th grade.

Pet Rescuer Club: Students will get to meet some of Hands, Paws, and Claws rescued animals. Many of these animals were pets until the owners learned how much time and effort was required with owning a pet. Many children want pets at home. This will give them an opportunity to experience what it is like to be responsible for animals and learn time and activities that are required to keep a pet safe and healthy. Children will be able to interact and learn how to care for them.

Polish Club: Bi-lingual Polish and English speaking students will have the opportunity to learn to read and write in Polish. This class will focus on giving students a solid foundation of the Polish language. This class will be taught by Ms. Sylwia who was a chemistry teacher in Poland. She will add some excitement and new science vocabulary to the class with science experiments throughout the hour.

Science Club: LGCS is looking for some scientists that want to create hypotheses and conduct experiments indoor and outdoor. There might be tornados in a bottle or invisible ink or volcanoes erupting. Join us if you dare for some cool experiments.
