

The advertised length of your camper is the usable "floor plan" length and not the overall **total length**.

We need the **total length** of your camper, fully extended and ready for camping.

Use the guides, on this page, to determine the **total length** of your camping unit.

The **total length** of your camper is used to make sure your camper will fit in the assigned camp spot.

The **total length** measurement needs to include the rear bumper along with accessories such as spare tire carrier or tailgate along with the tongue of a travel trailer or 5<sup>th</sup> wheel.

If you do not supply us with the **total length** of your camper MSRA Back to the 50s campgrounds will not be responsible for your camper fitting in its assigned spot.

There are no refunds on camping, if your camper does not fit the spot you will be asked to leave.
