Tiyamike Mulungu Center Primary School OCTOBER 2017 EDUCATION UPDATE !!!

The 2017-2018 academic year is in progress with 312 students. 88 are TMC children with about 50 staff children and the balance community children. Lessons are proceeding well. With Nursery, Pre-school and Reception and then the eight grades...Tiyamike Mulungu Center Primary School is becoming more and more the quality school long envisioned... A long way from the open air classrooms of yester-year!!

Thank you for making the reality of a high standard of primary education possible !!!

To have quality education in this

Thanks to obedient and loving hearts providing support, Tiyamike Mulungu Center Primary School has a Teacher/ Student ration of 1 to 35 as a maximum, which in Malawi is a major WOW!!!

For the last three plus years community kids eating at TMC. Now most TMC children are eating in their new home settings...with Community children in dining hall.

year Stnd 8 class who thru Govt miscommunications

to Form 1. This meant they would have sat at home until term two (January 2018) We have one girl who did poorly at a Govt Secondary School and they would not allow her to repeat the grade. She is in the

tutor program and will repeat at a private school Jan. Our hope, Our goal at TMCPS.. Is that COMMUNITY CHILDREN JOIN WITH TMC CHILDREN TO TASTE AND SEE THE GOODNESS OF GOD ... knowing his goodness answers so many questions... Whether children or adults... knowing and trusting his goodness removes our judgements against him often for what seems to be his doing. Blame he willingly shoulders because of his gift of free will to us ...Help Lord.
