

PUBLIC NOTICE

RILEY LANE LIFT STATION PROJECT

The Village of Creve Coeur recently received funding through the Illinois Environmental Protection Agency to construct a new lift station located by way of Riley Lane. This project qualified for a \$3,998,993.39 loan with \$1,199,698.02 debt forgiveness at 1.38% interest rate. The loan payments will be made with the capital improvement revenue. The construction of this lift station will eliminate 6 of the lift stations throughout town and will help with the backup issues that have occurred in the past. For more information, please contact Village Hall at 309-699-6714.
