

Sign-in Roster ASCE-SIS Meeting

Date: November 15, 2018 Location: US Bank Building, 101 S Capitol Blvd., 2 nd Floor in Room 200. Duration: 1 hour	Announcements, Growth and Airports Presentation
Description: We are pleased to have Dave Sherman, P.E. , a Civil Engineer with the Aviation Group at T-O Engineers in Meridian. With the booming growth in many Idaho towns, Dave has witnessed how that growth has affected some of our most economically valuable transportation infrastructure, airports. Dave is involved with growing and protecting the services that airports provide for their communities. Dave actively works on several airports in Idaho and Oregon, ranging from Baker City, Oregon to Idaho Falls, and many in between. Many of Dave's aviation projects incorporate several facets of Civil Engineering such as geometric layout, pavement section design, grading and drainage improvements, electrical systems, hangar development, fueling systems, equipment acquisition, and the administration of federal grants. Just as importantly, Dave also works with multi-jurisdictional teams to ensure that development on and around airports doesn't negatively impact the surrounding airspace, thereby preserving the level of service that airport users expect. Dave grew up in Mountain Home, and graduated from the University of Idaho with a Master of Science in Civil Engineering in 2011.	

Number	Name	Employer/Organization/Status
1	PAUL MIEBEEK	BSU
2	Kelvin Anderson	IPC
3	DAVID IRISH	PTG
4	Lauren Nuxoll	Kittelson
5	Tim Brewer	Idaho Power
6	Jesse Christensen	HECO Engineers
7	Perrin Robinson	Jacobs
8	Seth Olsen	Innovate Geotechnical
9	GIRAE HARPER	SPF WATER
10	BRANDON MCGOLDRICK	IDAHO POWER IDAHO POWER
11	Michelle McDonald	T-O Engineers.
12	Justin Schwalbe	Cochner
13	Rob Cleve	Cochner
14	Cody Cuper	Cochner
15	Stephen Loop	Full Circle Enterprises
