

# RUN FOR REECE!

- ★ **T**his is the 13th annual Reece's Roundup. It is because of our community, friends, sponsors and supporters who have been on his journey with us that Reece is surviving and thriving despite his condition.
- ★ Twelve years ago Reece was diagnosed with a rare genetic disorder called Spinal Muscular Atrophy (SMA) Type 1 and we were told he would not live long, even with the most aggressive care. "Take him home and love him," the doctor said.
- ★ From the beginning this motor neuron condition affected his ability to move, swallow and even breathe. But last fall Reece received his loading dose of Spinraza, a new FDA approved drug that offers hope for children with SMA. Reece is moving muscles he NEVER moved before; his ankles, shoulder and biceps This is a very promising drug...
- ★ On a daily basis we use the services of Home Health Nurses, PT therapist, OT therapists and speech therapists. Most of the time we only receive half of the hours we need.
- ★ We purchase durable medical equipment and supplies. While insurances cover some of it, there is still much it does not cover
- ★ Your participation in Reece's Roundup helps give us the means to give Reece what he needs to survive. We are so grateful for your help. Because of you - and faith - all things are possible

## FUN FOR ALL AGES!
