

magicJack EXPRESS

Overview

magicJack™ EXPRESS is a device that allows users to make unlimited calls to any phone in the U.S. or Canada over the Internet using a normal telephone.

Calls can originate from anywhere in the world.

To use a **magicJack™ EXPRESS**, one simply connects the provided ethernet cable between the device and a router or modem.

The next step is to power the device by attaching the provided plug to the USB prong and plugging into a power source.

Lastly, you plug any normal telephone jack into the **magicJack™ EXPRESS**.

Ethernet Cable, USB Power Plug and a USB Extension Cord are all provided in the **magicJack™ EXPRESS package.*

magicJack™ EXPRESS will also work plugged directly into the USB port of a computer.

At the amazingly low retail price of \$39.95, **magicJack™ EXPRESS** offers:

- Unlimited FREE calling to any phone in the U.S. or Canada from anywhere in the world
- Comes with FREE U.S. Phone Number, Voicemail, Call Forwarding, Caller ID, Directory Assistance, Conference Calling, and Call Waiting.
- **magicJack™ EXPRESS** is totally portable and can be set up and used anywhere in the world.
- Receive free calls from the U.S. or Canada anywhere in the world on the phone number that comes with each **magicJack™ EXPRESS**.
- Any two **magicJack™** users anywhere in the world can talk to each other for Free.
- Each device comes with an app that allows users to receive/make **magicJack™** calls on their cell phone and send free text messages
- An existing U.S. phone number can be transferred (ported) to a **magicJack™ EXPRESS**.
- No contract
