

THE HAGUE CHRONICLE

VOLUME 19 No. 6

HAGUE, NY 12836

JUNE 1990

HAGUE SUMMER ENTERTAINMENT PROGRAM

The Hague Chamber of Commerce recently announced its planned 1990 summer entertainment program, starting July 22 with the first in a series of weekly story hours for young children to be held at the Town Park. These weekly get-togethers will be scheduled on Wednesdays at 6:30PM through August 8. The format should be quite similar to last year's program with an emphasis on a relaxed "fun" atmosphere, with younger children's stories during the first part of the hour, and older kids' fare during the second half. Rain site will be the Community Center.

Kathy Santoniello is again looking for volunteers to read, with two story readers needed for each hour planned. Please call 543-6441 if you enjoy reading to children and have 20 minutes (or more) to spare over the summer.

On Thursday, July 12 at 7:30PM, the first in a series of five square dances will be held at the Community Center, under the direction of Stan Burdick, veteran caller, who has been Silver Bay Association's official caller for several years. He and his wife Cathie are also editor and publisher of the American Square Dance Magazine. Novices are welcome - Stan is a very good teacher. There will be a concession stand available for refreshments, benefit of the Beste Scholarship Fund. Subsequent dances will be held July 19, August 2, August 9 and August 16.

On Wednesday, July 18 the Silver Bay Association String Quartet will perform a concert at 7:30PM in the Town Park.

Finally, on Sunday afternoon, August 5 from 1PM-4PM, the country rock band, "Jeremiah Cactus" will entertain folks attending the Hague Arts Fair.

There will be no admission charge for any of the scheduled events. The program is brought to you in part by the Hague Chamber of Commerce and the Town of Hague, with public funds also provided from the NYS Council on the Arts and Warren County, NY.

Posters will be located at strategic spots around town, so try not to miss anything!

HAPPY FATHERS' DAY

JUNE 17, 1990

FROM OUR SUPERVISOR

During the past couple of weeks there has been some property damage at the Park and vandalism to our flower beds.

Our Park Attendant does an excellent job in maintaining these flower beds which are enjoyed not only by residents but also by those just passing through. He puts in long hours of hard work to accomplish this. When destruction occurs it affects everyone.

I am asking everyone to please report to the Town offices or my home if you see vandalism taking place. Call me at 543-6161, Town Office, or my home 543-8805. Your name will be kept in confidence if requested.

This is your Town - PLEASE HELP TO KEEP IT BEAUTIFUL... Richard E. Bolton

LANDFILL PROCEDURES AND MANAGEMENT

As greater awareness and concern develops regarding the use of Hague's Sanitary Landfill more attention needs to be given to daily use of the site. The manner in which refuse is handled and deposited at the Landfill is an important part of the quality and appearance of the site.

As with recycling, a well managed landfill begins with every individual properly handling refuse and using the site. Separation of different types of refuse is essential to proper management of the Landfill. Different materials need to be handled in different ways according to their qualities and the Town's ability to handle them.

If possible, pre-separate items into their various categories. For example: burnable, metals, yard wastes and grass trimmings, deep fill, reusable, recyclable and garbage. Upon arrival at the Landfill please deposit items at their appropriate location. If no particular place is identified or you are unsure of where to dump, please ask the landfill attendant, Tink Snow.

If everyone cooperates and does a small share in helping to manage the use of Hague's Landfill, the site will provide a better way to handle refuse for all town residents now and in the future. If anyone has any questions or would like further information, please contact John Breitenbach, Jr., Recycling Coordinator, at the Hague Community Center: 543-6161... John Breitenbach, Jr.

CUB SCOUT PACK 21 NEWS

Pack 21 is winding up its first season of Scouting with some fun and exploration of our and surrounding communities.

Den #1 visited the Hague Fire Dept. on the day of delivery of our new ambulance. They christened it with their finger and footprints. The ride back to the Community Center was a thrill (love that horn!) Thanks to all the firemen for their time and patience. May be some future firefighters here!

The Webelos visited the Great Escape for some of those tummy-tumbling rides and entertaining shows. Dens #1 and #2 ventured to Natural Stone Bridge and Caves and gazed on some "awesome" sights. Almost lost a few in Peter Pan's Peephole! The Cubs of Den #1 tried their skills at bowling earlier in the week - those wolf howls resound in the alley after a strike! And if any parent wants a real thrill, just take a group of 8 and 9 year old boys out for pizza (huh, K&J, T&S?)

Congratulations goes out to those eager Cubs who are earning their Scout badges. In Den #1, Wyatt Wells and Peter Hutchinson have achieved the rank of Wolf and have earned gold and silver arrow points. Adam Williamsen has added 4 silver arrow points to his credit.

Decorations are mounting in Den #2 - silver arrow points to Craig Smith, Nathan Lawrence (2), Thor Gautreau, James Girard, Chris Frasier, and David Fitzgerald. And in Den #3, Perry Girard, Jr. quickly gathered 4 silver arrowpoints in the Wolf rank.

A special pack meeting will be held on Saturday, June 16 at 7PM at the Community Center. Awards, recognitions, entertainment and refreshments will be enjoyed by the Cub Scouts and their families. Come on out grandparents!

Thanks to all who helped us by supporting our successful fund raiser. The boys are enjoying their activities and the badges this helped us provide.. KC

FIRE DEPARTMENT RUMMAGE SALE SCHEDULED

Ida May, has announced plans for a rummage sale to be held at her home on New Hague Road during the second week of August to benefit the Hague Fire Department. She hopes that any of our readers who might have anything for the sale will call her at 543-6029 for pick-up, or things can be left at her home at any time. There will be more about this next month. (Just wanted to get you prepared!)

HAGUE VOLUNTEER FIRE DEPARTMENT

Emergency Calls:

8 calls
238 miles
43 1/2 patient hours
1 6-hr. mutual aid call

Fire Calls: 1 fire. (Frasier trailer), and 1 call to Springdale Manor to investigate LP gas leak.

The new ambulance has arrived and is fully equipped, ready to go. The Fire Department would appreciate all the help it can get to pay for this beauty. Your generous contributions will be greatly appreciated.

NLGYC YOUTH PROGRAM

Have a summer filled with fun, learning to sail, swim and play tennis. Northern Lake George Yacht Club at Friends Point is again offering instruction in sailing, swimming and tennis from July 2 to August 17. The program begins Monday, July 2 with registration at the club at 9AM. Program hours are 9:00 to 1:30 Monday through Thursday. Members and non-member children, aged 7 - 17, are welcome to participate.

For additional information please call Lari Dhein at 543-6278 or the Northern Lake George Yacht Club at 543-6533 after July 1.

HAGUE SENIOR CITIZENS CLUB

The regular meeting of the Hague Senior Citizens Club will be held on Tuesday, June 26, at 1:30PM at the Hague Community Center. Plans for the July picnic will be discussed. Following the business meeting, a movie will be shown.

On Tuesday, June 19th there will be a social hour at the Club room. Bring your knitting, mending, or a deck of cards. This will be at 1:30PM.

All Seniors (50+), seasonal or year round are invited to share our programs. There are no dues to belong to our group. Suggestions for future programs are welcome.

HAGUE FISH AND GAME CLUB

has invited County Council to a meeting on July 5 at 7:30PM to speak on "The Future of the Adirondack Park." This will be held at the Fish & Game Clubhouse.

Governor Cuomo's Commission on the Adirondacks in the 21st Century has recently published a report which has been very controversial. This will afford an opportunity to find out more about this report. All are welcome.

TOWN BOARD MEETING - 6/12/90

Shawn Veltman of Clough Harbour Associates gave a presentation on the proposed waste water treatment system. They were retained by Warren County to do a basis of design report, assessing the needs for Hague. Two years ago a \$5,000 grant was awarded and all the preliminary information was gathered during the past two summers.

Three loans have been made available up to 3 million dollars at zero percent interest for towns who opt to use innovative and alternative technologies. Many communities have shown an interest in applying for these loans and Hague seems to have a very good chance of getting this kind of loan if they go with this type of system.

Mr. Veltman explained that the system that he was investigating was developed at Cornell University by Dr. William Jewell. He showed slides of the pilot reactors and answered a number of questions from interested residents. Clough Harbour will be working with Warren County and Supervisor Bolton to further research this system. They will be traveling to Cornell to tour this facility in the near future.

The former ball field is the proposed site of the facility. It would cost 10 to 20 thousand dollars a year to pump up to the system. If there were no funding available we could definitely not afford doing it. One benefit of this type of system is that it can be added to from time to time as needs arise. It would incorporate the area from Cape Cod Village to Ward's Marina on Rt. 9N and on Rt. 8 up to Rock and Rye turn. There would probably be at least two or three pump stations.

In other business, a letter of appreciation for the use of the Community Building from the Church of the Blessed Sacrament and a letter of thanks from Mitchell Frasier. A letter from DOT asking people to be tolerant of the inconveniences which will fall on them during the construction of Rt. 8 this summer. They are striving for a Nov. completion date.

On June 21 there will be an informational meeting on landfill fee schedules at 6:30PM at the Community Ctr.

Reports from Committees: Bldg. and Grounds - Posts for public boat dock will be installed next week by highway crew. Highway - Assisted county this week in placing culverts on county road. Recreation & Promotion - BASS Tournament this weekend. Steak Roast Sat. nite behind beachside. Amish quilt show and bake sale July 17 from 10AM-6PM at Community Ctr.

A Resolution #6 was passed transferring \$30,000 from Unexpended Balance Account to Sanitary Landfill Account. (As part of closure costs)

Bids for concrete work for the landfill are being let out.

On July 3 at 6:30PM there will be a meeting at the Community Center regarding recycling in Hague. The Bagdon Environmental Consulting Group will be represented and it is hoped that local residents will be there to find out what Hague is doing and what we will be doing in the future. . BD .

ZONING BOARD OF APPEALS - 5/24/90

The application for an interpretation by the Board submitted by Mr. & Mrs. Chris Ginn has been withdrawn.

Mr. David Darrin and Mr. Robert Joy, architect, appeared before the Board to discuss their proposal to rebuild Mr. Darrin's boathouse. Extra storage is needed and financially it would be more economical to add the space onto the existing building rather than build another boathouse at a different location on the shoreline (as allowed by the ordinance). They also feel that the character of the area would be preserved and enhanced by the proposal. The Board scheduled a Public Hearing for June 28 at 7PM.

PLANNING BOARD - JUNE 7, 1990

Three public hearings were held concerning 2 minor subdivisions and a lot line change. There were no comments either for or against any of the proposals from the floor. Following the public hearings the regular monthly meeting opened at 7:32PM.

Martin Fitzgerald presented his proposal to subdivide his 2.31 acre parcel on the west side of NYS Rt 9N under section 8.020, Gifts and Devises. The proposal meets the requirements of gifts and devises and passed unanimously.

Dan Wallace's proposed 3-lot subdivision on West Hague Rd. was passed unanimously with the condition that any development will comply with the A.P.A. fresh water wetlands regulations.

Steve & Marilyn Priore's proposal to subdivide their existing residence and approximately 3 acres from their Green Acres By-the-Brook Campsite was unanimously approved since each parcel exceeded the minimum acreage required for their zoning district and land use. George Wilson's proposed lot line change was approved unanimously with the condition that there be no additional expansion of any of the buildings in any manner what-so-ever and that the parking encroachment on their neighbor's land to the north be discontinued.

David Darrin and his architect, Robert Joy presented the practical difficulty that Mr. Darrin would have if he were required to limit the height of his proposed boathouse to the allowable maximum height of 16'. Mr. Darris is proposing to demolish all but the cribbing of the existing boathouse. The existing boathouse has a foot-print of 30'6" x 37 1/2". A 20' x 37 1/2' area of the

(Cont. on p. 4)

6/90

Planning Board (Cont. from p.3)

existing boathouse on the west side of the docks would become 2 stories with a height of 26'6" at the ridge. The deck area above the boat slips would have a maximum height of 13'6".

The practical difficulty is the need for 700 sq. ft. of additional storage space for water related items. The second story would provide this storage space. Mr. Darrin presented 3 allowable options to create additional storage space if the requested variance is not granted. Those options are:

1. Increase the foot-print of the existing boathouse.
2. Build a detached 700 sq. ft storage building 50' west of the existing boathouse.
3. Build a second boathouse near his south property line.

The Board unanimously approved to recommend to the Zoning Board of Appeals that the height variance be granted with the following conditions:

1. No further enlargement of the proposed boathouse as shown on the 6/7/90 plan will be allowed.
2. No additional boathouse, docks or lakeside storage buildings will be permitted on the property.
3. That the 2nd floor attic will be used only for the storage of boats and other related equipment.
4. No plumbing or living facilities will be permitted in the proposed boathouse.

A public hearing was scheduled for July 5, 1990 (the next Planning Board meeting) at 7PM on the Darrin variance request

A site visit was scheduled for the building formerly called the "Locust Inn", located at the intersection of Rt. 9N and 8. James J. Coates plans to purchase the property and would like to open a country inn with dining rooms, a tap room and bedrooms.

WILLY'S MAY/JUNE WEATHER NOTES

The most distinguishing weather features for this year's month of May were the number of rainy days, with a total for the month of 6.14". The month also ended up to be cooler than normal. We only reached into the 80's on two days. We had some 70° reading days but 65% of the time the high for the day never got out of the 60's. On two days, the 5th and 11th, the high for the day only reached 46 1/2° and 49 1/2° respectively. Our maximum reading for the month was an 84° reading on the 28th. Our minimum, lakeside, was a 38° reading that we managed to hit on four separate days, the 3d, 8th, 12th and 24th. That hasn't happened very many times, particularly with that wide a spread in the days. Another example was on the 29th when it reached 64° at 12:01AM, the high

reached 64° at 12:01 am, the high reading for the day, while at 12 noon on the same day it was only 52°. Our original long time Mt. top observer has returned for a brief respite and in the vernacular of equal this and that mode, we put that weather person right to work. A report of 34° on the 22d and 36° on the 24th were duly noted. It's good to have an old friend back. We've missed you. In spite of all this cooler weather in May we are still 5.7% warmer than normal for the heating degree season which ends June 30th. May also proved to be windier than normal. The highest gust was 39MPH on the 6th, but we had four other days with speeds in the 30's and nine more days in the 20's. We had one more day with some mild thunder boomers, in addition to the two days reported last issue. We gained one hour and five minutes of daylight during May. Think about it, here we already are in June as we write these notes. After June 21st the days will be getting shorter. I know that you really don't want to hear that, but that's the way the world turns.

June is valiantly striving to do better by us, weatherwise, and in some respects it is having a modicum of success. We have had five days where the temperatures have reached into the 80's. That's good news. We have had rain on seven of the eleven so far. That's bad news, but the volume has been minimal which means it has been in the form of showers. That's good news. We had a three day stretch earlier in the month where the temperatures never got out of the 60's. On one of those days the low temperature, Mt. top was 36° and today, the 11th, it looks like the high temperature will be 58°. We have had a strong NNE wind whistling along in the 30MPH range with a top gust of 46MPH and light rain throughout the day. Needless to say this has kicked up a reasonably impressive chop with the waves regularly crashing over the dock. The air temperature at 4:35PM today is 58°, the water temperature 59°. This is all bad news. It is the sort of weather one might expect in late March. The good news is that the sun is just starting to break through and at the very least we expect the temperatures to moderate along with some more seasonal summer weather over the next few days. The new summer colors have arrived in all their summer splendor. The gypsy moth activity is going on, but so far it doesn't seem too severe. Perhaps the cooler weather is not to their liking. The black flies and mosquitoes, however, think it is marvelous. We will have to await the progress of the gypsy moth and see what occurs with the warmer temperatures, which we do indeed hope are soon upon us. Enjoy!!

LOCAL MEN AND WOMEN ARRESTED IN DRUG RING

Bernard Denno, 43, Hague, and his wife, Linda O'Neill, 37, were sentenced to jail for distributing cocaine in Warren County on October 4. The Dennos were among nine people linked to a Warren County drug operation. Bernard Denno was sentenced by U.S. District Judge Cholakis to an eight-month term and his wife received a ten-month sentence. Assistant Attorney Donald Kinsella said the Dennos had a relatively minor role in the drug ring.

A suspected ring leader, Ronald Hansen, no age available, of Norwalk, CT was sentenced Tuesday by U.S. District Judge Thomas McAvoy to 6 1/2 years in prison, fined \$20,000 and required to forfeit to the government his restaurant, "The Hearth", located at Silver Bay.

Officials have said the group had ties with drug rings in CT, NYC and Columbia. A raid in Oct. by the Drug Enforcement Administration yielded what authorities said was the largest amount of cocaine - 2 kilograms, worth \$600,000, ever seized in Warren County. Also confiscated were cash and jewelry worth an estimated \$34,000. Previously Norma Parr, 42, of Norwalk pleaded guilty and was sentenced to 4 1/4 years behind bars. Donna Veno, 42, also of Norwalk was sentenced to 3 years on probation. Kinsella said charges against two defendants, James Wheelock, 40, of Ticonderoga and Ronald Parr, age unavailable, of Norwalk were dismissed for lack of evidence.

AN INTERESTING INHERITANCE

(Or Do We Mean THE LONG ARM OF COINCIDENCE?)

On January 1, 1987, a U.S. Post Office was established in Silver Bay in Wilson's Hotel (now incorporated into a section of The Inn at Silver Bay Association.) Mr. John J. Wilson, Prop., was postmaster.

In 1899 the position of postmaster passed to Mr. James Adams who would continue in his post until his death. Mr. Adams moved the post office to his home, a building on the westerly side of the town road that winds through the Silver Bay Association, and about opposite what is now Morse Hall on the Silver Bay Association campus. A few years later Mr. Adams built a small building near his house to accommodate the business in the summer months; in winter the post office moved back into his snug house. In the present Silver Bay Post Office are pictures of Mr. Adams, his post office and his transportation system - a wheelbarrow, with the mail sacks, with which Mr. Adams met the lake steamers at the Silver Bay boat dock.

A bored person is a boring person. . . (A Momilie)

Mr. Adams died in 1914, leaving a line of descendants who have been postal employees. His daughter, Mary Adams Church had been his clerk. A granddaughter, Ruth Church Fitzgerald who grew up in the house across the road from the the present Silver Bay Post Office, became the postmaster at Fort Ticonderoga and served for 14 years until the post office was discontinued. Her daughter, Mary serves in the Crown Point Post Office and the great great great granddaughter of Mr. Adams, a clerk in the Ticonderoga Post Office, Mrs. Jody Edson, is currently serving as Officer -in-Charge at the Silver Bay Post Office while its postmaster, Mrs. Joan Dillon is performing a similar service in the Hague Post Office.

... ewa

STORM IN WEST HAGUE

When a dark cloud appeared on the northern horizon early on the afternoon of May 25, people in the vicinity of the New Hague/West Hague/Cold Water Canyon Roads intersection expected a quick spring thunder shower. The day had been sunny and mild until then and a two-engined airplane had been spraying for gypsy moths during the morning over areas where eggs had been spotted earlier in the season. So it came as a surprise when the cloud touched very low and one could hear a "zing-zing-zing" in the trees and along the electric wires. It became apparent that, instead of thunder, lightning and heavy rain, moth-ball size hail was swirling and thrashing against trees, houses, roads and vehicles. The sound was deafening!

Animals trembled, cars came to a complete stop, leaves shredded onto roads and yards and people remarked, "I would not have believed it if I had not seen it!" The commotion continued for fifteen minutes, with the sound of the hail rising and falling as the wind howled or died down. Quick-thinking photographers reached for their cameras as the ground turned white.

By 2PM the temperature had dropped 15 degrees and the storm subsided. For some time afterward people were cautious about stepping outside as the accumulation of hail and shredded leaves made it very slippery. At 9PM some hail stones still had not melted.

Fortunately this was a localized storm, probably with no more than a half-mile path at this upper elevation. Miraculously Graphite escaped its effects, as did the lakeside hamlet and Silver Bay-Sabbath Day Point area.

Just because parents are allowed to do something doesn't mean kids get to do the same thing. . . (A Momilie)

QUICK REFERENCE FOR RECYCLING IN HAGUE
(To cut and out and post)

The following are the items which are now being recycled in Hague. As more items are added, we will keep you informed:

CLEAR GLASS BOTTLES & JARS - Colorless glass bottles and jars only. Clean & remove caps & lids (labels and rings are OK). NO ceramics, drinking glasses, pyrex, window glass, mirror glass, light bulbs, or glass with wicker or plastic mesh covering. Each of these is either a different kind of glass and/or presents problems for the recycling industry.

NEWSPAPER; - Remove and discard all colored inserts. Keep dry and clean. Newspaper soiled with paint or grease is not recyclable. Place in neat stacks or in brown paper bags (do not tie in bundles or place in plastic bags). NO magazines, telephone books, or other household paper.

STEEL CANS ("TIN CANS") i.e. soup & dog food cans. Test with magnet; if it attracts the can, it's OK. Clean, rinse and remove labels. When possible remove top and bottom, place them inside, and flatten the cans. NO caps and lids from other food and beverage containers (they often have plastic or cardboard in them).

"MILK JUG PLASTIC" (High Density Polyethylene) - Cloudy (opaque milk, cider, and water jugs are OK). Caps should be removed. Please rinse out well and "stomp" flat.

HAGUE LANDFILL HOURS FOR SUMMER ARE 12 NOON UNTIL 5PM, SEVEN DAYS A WEEK. Someone is there to help you, if needed.

AMERICAN LEGION

American Legion Post 1538 has announced a change in the July meeting date and time. It will be held on July 5 at 8PM.

The American Legion has a supply of American flags available for sale at moderate prices. For information contact Ray Laundree, Bernie Clifton, or Commander Don Davis. Be sure to get yours in time for July 4.

HAGUE MEN ARRESTED IN TRAILER FIRE

The trailer home of Holly (May) Frasier, Rt. 8, was burned to the ground on Friday, June 8. Holly and her two children were not at home at the time of the fire and there were no injuries. Hague Fire Dept responded, but it was completely out of control by the time they arrived.

Roy Scott Hayes, Queensbury and Eric Paul Frasier, Hague were charged with the third degree arson. Both men were arraigned by Queensbury Town Justice William Bocos on Friday and sent to the Warren County Jail with no bail.

TICONDEROGA FESTIVAL GUILD

The Ticonderoga Festival Guild summer season got off to a resounding start on Saturday night, June 9 when Gene Krupa's Orchestra came to the Ti High School.

The first regular concert of the season will be held on Tuesday, July 10 featuring Epic Brass Quintet who will perform for the Arts Trek VIII program (children's) at 10:30AM on July 11. The Foot and Fiddle Dance Co. (clogging, tap, western swing, accompanied by fiddle tunes, country ballads and rockabilly music) will perform on July 17. All evening concerts are at 8PM under the tent in Ticonderoga.

This year the Guild will again sponsor a Friday night series, starting off on July 13 with "SHOWTIME", an area talent show. Anyone who has talent and would like to participate may contact Julie MacAlpine-585-6291. The Lamplighters, a local favorite will play music of the 50's and 60's on July 20.

Season tickets for the five Tuesday night concerts are \$25.00. Individual tickets may be purchased at time of performance for \$6. for adults, \$5. for Senior Citizens and \$4. for students. For the Friday night series tickets will be Adults, \$5. and Senior Citizens and students \$2.50. You may call the Festival Guild office at 585-6716 to order your season tickets.

Winners in the Festival Guild's program cover contest, all students from THS, were: 1st-Nicole Guerin; 2nd-Matt MacDougal and 3rd-Cathy Jzyk. Two students from Hague, Tony DeFranco and Carolyn Dykstra won honorable mention. The posters were on display at Champlain Valley S & L.

COMMUNITY CENTER AVAILABLE FOR RESIDENTS' USE

In addition to using the large meeting room in the Hague Community Center for activities by organizations in the community, it is also available for use by individual residents. A fee is charged only when the room is rented by someone from outside the community.

One of the regulations that goes with using the room is that there will be NO smoking in the building or any alcoholic beverages allowed on the premises.

Applications for use of the Community Center are available in the Center Office. Bertha Dunsmore is the coordinator.

For those of you who have not yet seen our new Community Center, please drop by. We are very proud of it.

AMERICAIDE CYCLISTS KEEP AMBULANCE SQUAD BUSY

Over 20,000 cyclists descended on The Great Escape Park beginning June 5, and we all breathed a sigh of relief when it was all over. At least three separate cycle accidents occurred on Tongue Mt. over the weekend, calling on the rescue squad. They were like bees buzzing by in groups of 2 to 30 at a time. A good group - just a lot of them! They just don't know our mountain!

SOUNDINGS

JRN - A boy, Roderick George, to John and LouAnne Geer on April 23, 1990. Very proud grandparents are Rod and Norma Geer, Glenview, IL and Forest Bay.

DIED - Robert Rypkema, 60, Ramsey, NJ and Hague, on May 18 in Ramsey after a year's battle with cancer. He is survived by his wife Bette, children and grandchildren.

KATHLEEN CRABBS, daughter of Capt. and Mrs. E. H. Crabbs, Jr., Fredericksburg, VA and Hague, and granddaughter of Mrs. E. H. Crabbs, Hague, graduated cum laude from Randolph-Macon University on May 27 with a B.A. degree in English and History.. She was inducted into Phi Beta Kappa on April 20.

LISA COBB, daughter of Mr. & Mrs. William Cobb, Hague, was granted a \$20 award for Achievement in the Performing Arts by the Essex County Arts Council.

SEAN KETHER AMANN, son of Mr & Mrs Thomas DeGraff and grandson of Mr & Mrs. Ery DeGraff, Hague, has been named to the Dean's List for the fall semester at RPI.

THE FIFTH MARKING PERIOD HONOR ROLL

The following students from Hague have been listed on Ticonderoga High School Honor Roll for the fifth marking period:

First Honors: TREYA BRAISTED, ELIZABETH DeFRANCO, TONY DeFRANCO, CAROLINE DYKSTRA, AMY ROSS, MICHELLE WATERS

Second Honors: RICHARD COBB, TIEAH GAUTREAU, KRISTY PORTER, YICKI WATERS, KELLY YAW.

CONGRATULATIONS - KEEP UP THE GOOD WORK!

One of our readers suggested that we publish a copy of the HYFD pledge card. Most of you may have received these cards in the mail, but just in case you haven't (or lost it), here is an opportunity to cut this one out and mail it to _____m. They will be most grateful.

THE MASTERSINGERS IN CONCERT

The Mastersingers, the greater Glens Falls area community chorus, will present their Spring concert on June 17 at 4PM at Christ Church, UM, 54 Bay St., Glens Falls.

Conductor Thomas Booth has planned a truly "Pops" concert entitled: "10 x 10" - Ten Decades of American Popular Song, featuring at least two songs from each decade for the last 100 years. According to Booth, these songs will provide an outline for a mini-history lesson on the evolution of popular music in this country from the early days of Tin Pan Alley right up to the present.

Booth, who will also narrate the program, has arranged eight of the 24 songs to be presented and will as usual be at the keyboard. There is a suggested donation for this concert of \$7.00 for adults and \$5.00 for seniors and students.

TI HISTORICAL SOCIETY ART SHOW

Don't miss the opportunity to see the art show featuring Ticonderoga area artists at the Hancock House through June 30. Hours are from 10AM- 4PM. Two Hague artists are showing some of their works - Shirley Smith and Beatrice Fraser. It is a beautiful exhibit and a wonderful way to showcase local talent.

Other exhibits will be forthcoming. The art gallery at the Hancock House is certainly a plus for this area and the Ticonderoga Historical Society should be congratulated for its foresight in establishing a gallery in its building.

The Hancock House is open daily until October from 10AM to 4PM.

Two lifeguards have been hired for the Town Beach. They are Greg Chappell and Jacinta Beehner.

The park attendants this year are: Jack Bolton, Bernard Clifton, Bob Hoyt, Evert Lindquist, Dick Parkis and substitute, Martin Brown.

It's good to see our summer friends trickling in. Hope you all have a sparkling FOURTH OF JULY.
