

# 15K Pressure Sealer

To meet the ever growing requirements of production volume facilities, Infinity Solutions offers the 15 K High Volume Pressure Seal Systems. The 15K Plus is an out of the box solution providing for a quick setup, quiet operation, and offers user friendly touch screen controls returning the simplicity to mail processing. The 15K Plus' innovative design offers an affordable solution that seals as it folds pressure seal documents.

Capable of processing up to 22,000 forms per hour, the 15K Plus incorporates bottom feed technology for continuous throughput increasing your organizations productivity while reducing operational costs. This remarkable unit offers five standard fold patterns (Z, EZ, C, EC, and V), custom folds, and forms up to 17" in length including return envelope applications. The 15K Plus also features an indexing feed system to reduce maintenance and a high capacity conveying system to increase off load capacity of up to 1,200 documents with the standard vertical stacker or up to 3,000 with the optional 48" vertical stacker.

The Infinity Solutions 15K Plus is completely manufactured in the United States, and its durability and value are unmatched in the industry.
