

TP 3000
TOOL PROS GROUP INC
6 Geoffrey Rd, Fairless Hills PA 19030

1. Identification of the Substance/ Mixture and of the Company/ Undertaking

Product Name: TP-3000

Preparation Date: May 12, 2015

Revision Date: May 19, 2015

Recommended Use: Metalworking Fluid

Supplier: TOOL PROS INC 6 Geoffrey Road Fairless Hills, PA 19030

Phone: 215-295-5800

2. Hazards Identification

GHS Classification:

Skin Irritant – Category 2

H315: Causes skin irritation

GHS Labeling:

Symbols:

Signal Word: Warning

Precautionary Statements:

P264: Wash thoroughly after handling

P280: Wear protective gloves/ protective clothing/ eye protection

P302 + P352: If on skin, wash with soap and water

P332 + P313: If skin irritation occurs, seek medical attention immediately

P362: Take off contaminated clothing and wash before reuse

P501: Dispose of contents/ container to an approved waste disposal plant

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]: Skin Irritant – Category 2

Other Hazards Not Classified: No significant hazards

3. Composition/Information on Ingredients

Mixture: Water, surfactants and additives.

Chemical Name	CAS Number	Concentration, Wt. %
Alkanolamine	141-43-5	Trade secret
1,2-Benzisothiazolin-3-one	2634-33-5	Trade secret

4. First Aid

Inhalation: If inhaled, move to fresh air. If victim has stopped breathing give artificial respiration, preferably, mouth to mouth. Contact a physician immediately.

Eyes: Flush with large amounts of cold water for at least 15 minutes. Do not let victim rub eyes. If irritation develops, contact a physician immediately.

Ingestion: Do not induce vomiting. Contact a physician immediately.

Skin: Wash affected area with soap and water. Remove contaminated clothing. Launder contaminated clothing before re-use. Contact a physician if irritation develops

5. Fire-fighting Measures

Suitable extinguishing media: Carbon dioxide, Dry chemical, Alcohol foam

Specific hazards: None

Specific protective equipment and precautions for fire fighters: Isolate fire area and deny unnecessary entry. Use dry chemical, alcohol foam or carbon dioxide. Water may be ineffective but should be used to keep fire exposed containers cool. If a spill or a leak has not ignited, use water spray to disperse the vapors. Water spray may be used only to keep fire exposed containers cool, protect personnel attempting to stop leak and disperse vapors.

Unusual Fire and Explosion Hazards: None

Flammability Properties: Flash point: None Method Used: N/A

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment. Ensure adequate ventilation. **Environmental Precautions:** Do not allow spilled material to enter sewers or streams. If material is released, indicate that there is a risk of slipping in the area. If spills are likely to enter any drain, waterway or groundwater, contact the appropriate governmental agency.

Methods and materials for containment: Add dry material to absorb (if large spill, dike to contain). Using recommended protective equipment, pick up bulk of spill and containerize for recovery or disposal. Flush area with water to remove residues.

7. Handling and Storage

Precautions for safe handling: Read label for instructions in use of product. Prevent small spills and leakage to avoid slip hazard. Avoid contact with skin, eyes and clothing. Do not wear contact lenses when handling this product. Keep out of the reach of children. Wash thoroughly after handling. Material can accumulate static charges which may cause an electrical spark (ignition source).

Conditions for safe storage: Store in closed containers in a cool, dry well ventilated area not exposed to sunlight. Maintain closure of bungs. Do not reuse container. Avoid container damage while storing. Do not allow material to be stored below 0°C. Do not allow material to freeze.

Empty containers retain residue (liquid and/or vapor) and can be dangerous. Do not pressurize, cut, weld, bronze, solder, drill, grind or expose such containers to heat, flame, sparks, static electricity or other sources of ignition; they may explode and cause injury or death. Do not attempt to refill containers since residue is difficult to remove. Empty drums should be completely drained, properly banded and returned to a drum reconditioner. All containers should be disposed of in an environmentally safe manner in accordance with governmental regulations.

8. **Exposure Controls/Personal Protection** Control parameters: Exposure Guidelines: Alkanolamine: 3 mg/m³ TWA
Triethanolamine ACGIH TLV: 5 mg/m³ Appropriate engineering controls: Proper protection and controls is dependent upon the potential exposure conditions. No special requirements are needed under ordinary conditions where adequate ventilation is available.

Individual protective measures:

Respiratory protection: General room ventilation should be satisfactory. Exhaust ventilation may be necessary if misting is generated.

Eye protection: Safety glasses with shields or chemical goggles are required. Contact lenses should not be worn if the product could be splashed into the eyes.

Hand protection: Rubber gloves are required for single, short duration exposures and for prolonged or repeated exposures.

Body protection: For single, short duration and for prolonged or repeated exposures to the skin, wear impervious, protective clothing including rubber safety shoes to avoid skin contact.

9. **Physical and Chemical Properties**

Appearance: Amber liquid

Odor: Sweet

Odor Threshold: N/A

pH : @ 5% in water: 9.7 +/- 0.3

Melting point/freezing point: 0C

Initial boiling point and boiling range: >105°C

Flash Point (PMCC): None

Evaporation Rate: N/D

Flammability (Solid, Gas): N/D

Upper/lower flammability or explosive limits: UEL: N/D LEL: N/D

Vapor pressure: As water

Vapor density: As water

Relative density: 1.03 +/-0.01

Partition coefficient n-octanol/water: N/A

Autoignition Temperature: No data available

Decomposition Temperature: N/A

Viscosity: N/D

10. **Stability and Reactivity**

Chemical stability: Stable at normal conditions

Possibility of hazardous reactions: Not expected and hazardous polymerization will not occur

Conditions to avoid: Excessive Heat.

Incompatible Materials: None known.

Hazardous decomposition products: Oxides of carbon and nitrogen.

11. **Toxicological Information**

Inhalation: Inhalation of vapors or mist can be irritating to respiratory passages

Skin: Prolonged contact can cause irritation

Eyes: Contact can cause irritation

Oral: None known

Systemic (other target organ) Effects: None known

Teratology (birth defects): None known

Reproductive Effects: None known

Mutagenicity (effects on genetic material): None known

Carcinogenicity: IARC: NO NTP: No OSHA: No

12. **Ecological Information**

Persistence and degradability: Data is not available.

13. **Disposal Considerations**

Disposal methods: P501: Dispose of contents/ container to an approved waste disposal plant

Dispose of in accordance with federal, state and local regulations

Precaution for disposal: All recovered material

should be packaged, labeled, transported and disposed or reclaimed in conformance with Good Engineering Practices.

Comply with all applicable governmental regulations. Avoid landfilling of liquids. Reclaim where possible.

14. **Transport Information**

US DOT: Not regulated by the US DOT

RID/ADR: Not regulated by RID/ADR

IMO: Not regulated by IMO

IATA: Not regulated by IATA

15. **Regulatory Information**

US TSCA: In compliance with the inventory **Canada DSL:** In compliance with the inventory

Cal. Prop. 65 This product does not intentionally contain any chemicals known by the State of California to cause cancer and/or birth defects. Moreover, we do not routinely analyze its products for impurities which may be such chemicals. **SARA (313) TOXIC**

RELEASE INVENTORY: This material contains no chemicals subject to the supplier notification requirements of the SARA 313

Toxic Release Program. **VOC Content (SCAQMD ASTM 1868-10) :** <100 g/l concentrate; <10 g/l at maximum recommended

dilution of 10%.

16. **Other Information** **Special Precautions to be Taken in Handling and Storage:**

Normal precautions common to good manufacturing practices should be followed in handling and storing. Store away from food.

Wash hands before eating, drinking or smoking. Use as directed. **Disclaimer:** This document has been prepared in good faith and

from information provided to us by our suppliers and other sources considered to be reliable. No warranty, express or implied is given.

The buyer is responsible to evaluate all available information when using this product for any particular use. The buyer is also

responsible for complying with all Federal, State, Provincial, and Local Laws and regulations when using this product.
