

Please note that we do offer discounted exams and would be happy to provide one for your pet while here at the clinic. Although we do not REQUIRE that your pet have an exam today, we do highly recommend that your pet receive a comprehensive physical exam on a yearly basis, especially since they age differently than humans.

Vaccine Clinic Check In

FOR CLINIC USE ONLY

Testing Results:

Heartworm	+	-
Fecal	+	-
F.I.V.	+	-
FeLV	+	-

Pets must be in good health to receive vaccinations. Those pets with health problems may not be vaccinated and should be treated prior to vaccinations. A small percentage of pets will have an allergic reaction to a vaccine. Please advise us if your pet has had a previous reaction to a vaccine. Symptoms of a reaction may include facial swelling, rubbing of the face, vomiting, diarrhea, lethargy, fever, and/or swollen ears, muzzle, or eyelids. By signing this form, you grant the SNIP Regional Spay/Neuter Clinic and its staff members, volunteers, or agent's permission to administer vaccinations to the animal named on this form. I understand that modern techniques and trained staff will be used to care for all animals and that reasonable precautions will be used against injury, escape, or destruction of the animal. It is thoroughly understood that SNIP Regional Spay/Neuter Clinic, its staff, volunteers, and agents will not be held liable or responsible in any manner, and I assume all risks.
