

Marilyn Anderson

As a dedicated self-taught artist, Marilyn strives to express herself through her creations and is passionate about color. Although she has painted a variety of subjects over the years including pets and livestock, Marilyn specializes in artwork that captures the beauty of dramatic landscapes, waterscapes and skyscapes in rich oils. Marilyn also loves to paint large and has completed several bigger pieces including some murals. Her art is displayed as far as New York.

Marilyn's commitment to artistic expression has recently launched her along a new and exciting path that explores the world of mixed media. Allowing her spiritual side to flow, Marilyn applies techniques that incorporate acrylics, inks, oils, texture, drips, pattern and even messaging. As her own style emerges in these mediums, she looks forward to releasing a collection of her newest signature artwork.

As an artist and musician, Marilyn loves to inspire the community. From The Bloomin' Paintbrush Art Studio & Garden, she offers seasonal art classes in the studio and seasonal music events on the bandstand in the adjacent Art Garden which also displays local artwork.
