<sup>2</sup> Fertilizer must be shipped by October 31<sup>st</sup>, 2016 OR between March 1<sup>st</sup> and March 24<sup>th</sup>, 2017. The reason for these shipment dates is that 2-15-19-3 and 0-0-25-17S *may* fall apart in extremely cold temperatures over the winter. Thus far that has only happened in extremely cold situations in Minnesota and North Dakota, but if you decide that you want to store these products over the winter for any reason you have to sign a waiver of liability.
