

2020 Daily Membership Information

If you have paid in full for the 2020 summer season you are member of the Candlewood Swim & Racquet Club. What we are offering is a general admission policy for this year. The reason for this is if open late or have to close early as due to the Covid-19 virus or if social distancing measures (we feel that there will be limits on the amount of people entering) can't be tolerated at the club than no one will be out money.

Here is how it will work:

-The daily general admission will be \$10 per person for current members which will deducted from your paid in full balance.

Guests will be \$15 per person for guests. The only exception is children under 3 will be free.

-You will pay in full for your membership for the 2020 season. The \$10.00 fee per person will be deducted from your full payment. If you indeed have a balance on your account at the end of the season you will have the option to use this balance towards your 2021 membership or receive a refund. There will also be an incentive to use your credit amount and pay for your 2021 membership fee in full by September 15, 2020, for the best price for the 2021 membership.

-The maximum you will be charged for the 2020 season is the full membership price. An example you and your family member come everyday the most you will get charged is the full membership price of \$695.00.

-If you keep your membership through the 2020 season and never come into the club then you are paid in full for the 2021 summer season and owe nothing next year.

-Please understand that we will be raising the prices for the 2021 season! Keeping your membership would save you money in the future.

-If you want a refund for the 2020 season we will oblige. Please keep in mind that you would have to rejoin for 2021 at the new increased 2021 price. Also, if you or any family member decide to come in later for the summer you will be charged the guest fee not the member fee.

-EVERYONE MUST SIGN IN AND OUT EVERYDAY! This is required by the board of health for contact tracing.

-Everyone will have the temperature checked by an infrared scanner before entering. If your temperature is above 100.4 degrees, you will be refused entry.

-There will be other COVID-19 rules which will be posted when you enter the club.
