

2017 FACT SHEET

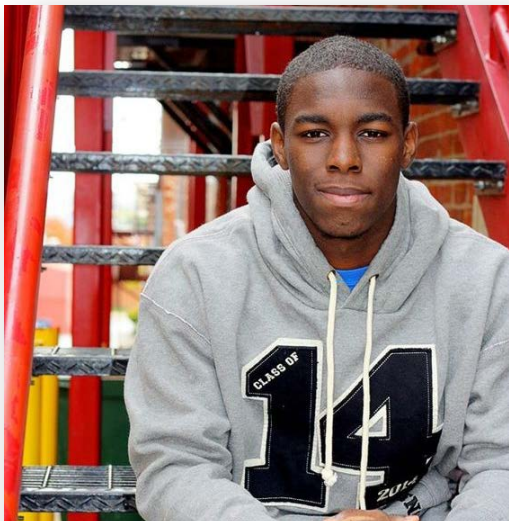

SCOTT
Foundation
Growing next generation
Thought & Service Leaders

ONE SIMPLE STEP. ONE HUGE DIFFERENCE.

Currently, Arizona has nearly 20,000 children in the foster care system with exorbitant compounded costs of nearly **\$453,598** per child, annually for social and criminal justice services, child welfare, healthcare, education, unemployment, foods stamps and shelters.

Can you imagine the impact if we invested in these kids to break the cycle and successfully graduate community-minded, “whole-people” that become leaders?

VISION

Imagine a journey that changes the face of humanity and inspires our children to be their absolute best today while making tomorrow's world a much better place for all.

Imagine an education and societal system focused on the power of community rather than competition.

Imagine a world where children are taught we are not separate, but instead, we are all a part of something much bigger than ourselves - we are one.

MISSION

Our aim is to develop inner wealth as we believe in making the world a more peaceful and loving place by emotionally teaching kids to make better choices through selfless service.

WHO WE SERVE

Scott Foundation provides programs FREE of cost to kids in the Arizona foster care system and at-risk youth.

- We've held a growing wait list of 3,000+ children, 6 of the 9 years we've been serving.
- In 2015 we added a new wait list of 100+ teachers that wish to join the foundation and teach our programs year-round.
- 9 out of 10 of the At-Risk kids are living in extreme poverty, earning less than \$23,800 for a family of four or more
- Nearly 20,000 children sit in the Arizona foster care system today, 14,000 of those are of age for our programs, with 1,000 of them eligible for our young adults programs.
- Redirected tax dollars/credit invest in a child's well-being, providing hope and direction through a holistic career development path out of the system.

PROGRAMS

“Along with developing heads, we must also develop hearts. For it is the heart alone that determines whether the power derived from knowledge will be used for positive means or negative ends.”
- ISSE-USA

AWAKENING THE SUPERHERO INSIDE

Our Masterclass Program is a 4 year program that holistically invests to fulfill the individual young persons social-emotional well-being, dreams, education, work-learn experiences and independent living. Through a progressive series of after school and summer activities, we cultivates mindfulness; and brings together the arts and education in a series of uplifting experiences, in a pathway through service to develop kind and caring kids. With a focus on kids first learning to love themselves, they more naturally become our next generation Thought & Service Leaders by way of:

- Self-awareness, awakening and becoming conscious about their thoughts, feelings and actions
- Establishing a sense of inner peace
- Teaching them to be kind and caring
- Nonviolence, awareness, awakening and becoming conscious and the realization of oneness of all beings and things
- Encourages individual vision through reflection and fulfillment of community needs

All of our in-kind donations are redirected back into the community through our programs and benefit people in need. This enables young people to get a taste of the joy of selfless service while fostering connections between them and needs in the community.

SINCE 2007, SCOTT FOUNDATION HAS IMPACTED THE LIVES OF

4,950+ KIDS
\$600K

IN-KIND DONATIONS HAVE BEEN RE-DIRECTED
BY KIDS BACK INTO THE COMMUNITY

COMMUNITY IMPACT

Scott Foundation takes its commitment to the kids and community seriously. Too many youth are exposed to violence, poverty and crime, which in most cases leads to them repeating the cycle.

Our desired outcome breaks the cycle of poverty and violence and ultimately transforms the kids and community by successfully graduating community-minded, "whole-people" with significantly decreased addictive and violent behaviors. This helps prevent the future need for more costly social and criminal justice services.

These developing Selfless Superheroes lead the charge, stepping forward and ready to bring about social change; they are our next generation Thought & Service Leaders.
