

## Kevin Wood

Has been a specialist for 20 years in Procurement Contracts and Negotiations for Global Fortune 500 companies such as Toshiba, British Petroleum, Cameron, and North America to name a few. In 2014, he moved to Houston with his then Fiancée Renee, and eventually found their Lakewood Forest dream house, when the adult oak trees seemingly reached out to them. They loved the camaraderie that they saw and experienced during The Storm, and Kevin would like to bring back that sense of community through various youth and adult events that can bring in new young families. He would like to see cost cutting and wise spending, a lowering of dues, and bring back a level of trust and confidence in the elected leadership where residents are treated with respect. The focus will be the long-term well-being of the community and its residents.
